**Excel Senior High School Earth and Environmental Science** Raimund R. Pohl,2003 **Selected Water Resources Abstracts** ,1986 **Organic Acids in Aquatic Ecosystems** E. M. Perdue,1990-06-14 Organic Acids in Aquatic Ecosystems E M Perdue E T Gjessing Editors This

volume consists of background papers and reports on discussions focused on identifying major processes that cause spatial and temporal variability in properties and concentrations of organic acids in aquatic ecosystems. Scientists in aquatic chemistry, environmental chemistry, soil chemistry, organic geochemistry, water treatment technology, forest ecology and stream ecology collectively address four major questions: What is the composition of organic acids and how are they characterized? How are acid-base properties of DOC measured and modeled and how do they affect aquatic ecosystems? How do organic acids interact with solutes, surfaces and organisms? What are the temporal and spatial variations of organic acids at the ecosystem level? This volume provides an up-to-date assessment of the state of knowledge of organic acids in aquatic ecosystems and identifies promising areas of new research that deserve the attention of all scientists who study chemical and biological processes in natural waters where the importance of organic acids in such processes is not yet fully recognized.
