## Architects Design Guide:

Design through Dialogue Karen A. Franck, Teresa von Sommaruga Howard, 2010-02-15 Completed projects receive more public attention than the process of their creation and so the myth that architects design buildings alone lives on In fact architects work with a great many others and the relationships that develop particularly with clients have a significant impact on design Design through Dialogue explores the relationship between client and architect through the lens of four overlapping activities that occur during any project relating talking exploring and transforming Cases of design and collaboration range from smaller scale retail residential and educational projects in the US Sweden the UK and the Pacific Rim to large institutions including Seattle s Central Library the National Museum of the American Indian in Washington DC the Supreme Court in Jerusalem and the Museum of New Zealand Material is taken from interviews with clients and architects and research in psychotherapy group dynamics and design studies Throughout the book aspects of process are linked to design outcomes to illustrate how architects and clients collaborate creatively

**RETHINK Design Guide** Nicola Gillen, Pippa Nissen, Julia Park, Adam Scott, Sumita Singha, Helen Taylor, Ian Taylor, Sarah Featherstone, 2021-02-18 The world has changed How will society emerge post pandemic Will we take the opportunity to reset the status quo And if so what possibilities are there for architects to take the initiative in designing this new world This innovative design guide draws together expert guidance on designing in the immediate aftermath of the pandemic for key architectural sectors housing workplace civic and cultural hospitality education infrastructure and civic placemaking It provides design inspiration to architects on how they can respond to the challenges and opportunities of a post pandemic environment and how architects ensure they are at the forefront of the best design in this new world Looking at each sector in turn it covers the challenges specific to each and how delivering these designs might differ from the pre pandemic world As well as post pandemic design the vital issue of climate change will be threaded through each sector with many cross overs between designing for the climate emergency and designing for a world after a pandemic Both seek to make the world a safer happier and more resilient place Written by set of contributing design experts this book is for all architects whether sole practitioners or working in a larger practice As well as inspirational design guidance it also provides client perspectives crucial for understanding how clients are planning for the future too
