**Addressing Maladaptive Behaviors from AI Integration in Learning** KHRITISH SWARGIARY, 2024-08-01 In recent years the integration of Artificial Intelligence AI into educational systems has marked a transformative shift in how learning is delivered and experienced AI technologies ranging from intelligent tutoring systems to adaptive learning platforms offer unprecedented opportunities for personalized and efficient education However this rapid evolution also brings new challenges particularly concerning students behavioral and emotional well being The purpose of this book is to explore the complex interplay between AI and maladaptive behaviors in educational settings While AI has the potential to revolutionize education by tailoring learning experiences to individual needs it also has the capacity to influence student behavior in ways that may be detrimental to their overall development As educators policymakers and researchers it is crucial to understand and address these potential impacts to create a more supportive and balanced learning environment

**Psychological and Pedagogical Considerations in Digital Textbook Use and Development** Railean, Elena, 2015-04-30 This book offers balanced coverage of the technological solutions that contribute to the design of digital textbooks and contribute to achieving

learning objectives offering an emphasis on assessment mechanisms and learning theory      **Your Library Is the Answer**  
 Christina T. Russo, Cathy Swan, 2015-01-22 Today's tech savvy and digitally connected students present a new challenge for today's school librarians. This book offers the 21st century tools and know-how necessary for educators to appeal to and challenge students to learn and to want to learn. What are the best ways to motivate students to become engaged and develop a passion for learning? Can appealing to their desire for socialization and constant communication attributes of their lives outside of education via the integration of cutting-edge technologies and new media in the library or classroom serve to ignite creativity, curiosity, and critical thinking? This book shows how you can make use of non-traditional tools such as popular social networks, collaborative technologies, and cloud computing to teach information and communications technologies integrated with the school curriculum to improve student learning and demonstrates how these same technologies can help you measure skills and mastery learning. The book provides an easy-to-follow blueprint for using collaborative techniques, innovation, and teaching for creativity to achieve the new learning paradigm of self-directed learning such as flipping the classroom or library. Readers of this book will find concrete step-by-step examples of proven lesson plans, collaborative models, and time-saving strategies for the successful integration of American Association of School Librarians (AASL) standards. The authors, both award-winning teachers, explain the quantitatively and qualitatively measurable educational value of using these technologies for core curricular and information and communications technologies instruction, showing that they both enhance student learning outcomes and provide data for measuring their impact on learning.      *Design Recommendations for Intelligent Tutoring Systems*  
 Robert Sottolare, Arthur Graesser, Xiangen Hu, Keith Brawner, 2015-07-05  
*Design Recommendations for Intelligent Tutoring Systems* (ITSs) explores the impact of intelligent tutoring system design on education and training. Specifically, this volume examines Authoring Tools and Expert Modeling Techniques. The *Design Recommendations* book series examines tools and methods to reduce the time and skill required to develop Intelligent Tutoring Systems with the goal of improving the Generalized Intelligent Framework for Tutoring (GIFT). GIFT is a modular, service-oriented architecture developed to capture simplified authoring techniques, promote reuse, and standardization of ITSs along with automated instructional techniques and effectiveness evaluation capabilities for adaptive tutoring tools and methods.      **Improving Adolescent Literacy**
