

PALS Study Guide: main booklets

Primary Prevention

Primary prevention aims to reduce the risk of developing a disease or condition before it occurs. This can be achieved through various measures, including lifestyle changes, vaccination, and early detection. The main booklets in the PALS study guide provide information on these measures and how to implement them.

Secondary Prevention

Secondary prevention aims to detect and treat a disease or condition as early as possible, before it has caused significant damage or disability. This can be achieved through various measures, including regular screening, early diagnosis, and prompt treatment. The main booklets in the PALS study guide provide information on these measures and how to implement them.
