The Road to Unfreedom Timothy Snyder, 2018-04-05 From the author of international bestseller On Tyranny this prescient analysis of Russia's ongoing interference in the West is now more relevant than ever One of the best brisk conceptually convincing account of democracy's retreat in the early years of 21st century Guardian The past is another country the old saying goes The same might be said of the future But which country

For Europeans and Americans today the answer is Russia In this visionary work of contemporary history Timothy Snyder shows how Russia works within the West to destroy the West by supporting the far right in Europe invading Ukraine in 2014 and waging a cyberwar during the 2016 presidential campaign and the EU referendum Nowhere is this more obvious than in the creation of Donald Trump an American failure deployed as a Russian weapon But this threat presents an opportunity to better understand the pillars of our freedoms and face the choices that will determine the future equality or oligarchy individualism or totalitarianism truth or lies A brilliant and disturbing analysis which should be read by anyone wishing to understand the political crisis currently engulfing the world Yuval Noah Harari bestselling author of Sapiens **Union**

Catalog of Serials Currently Received in the Libraries of the University of Wisconsin--Madison University of Wisconsin--Madison. Libraries,1982 **The Routledge Handbook of Tourism in Asia** C. Michael Hall,Stephen J. Page,2016-09-13 Asia is regarded as the fastest growing area for international and domestic tourism in the world today and over the next 20 years Given the economic social and environmental importance of tourism in the region there is a need for a comprehensive and readable overview of the critical debates and controversies in tourism in the region and the major factors that are affecting tourism development both now and in the foreseeable future This Handbook provides a contemporary survey of the region and its continued growth and development as a key destination and generator of tourism which is marked by a high proportion of intra regional travel The book is divided into five sections This first section provides an introduction to the region and context to the nationally focused chapters The next three sections are then broadly based on the three UNWTO Asian regions South East Asia South and Central Asia and East and North East Asia providing readers with a valuable snapshot of tourism at various scales and from various approaches and positions The concluding section considers future prospects for tourism in Asia The handbook is interdisciplinary in coverage and is also international in scope through its authorship and content It presents a range of perspectives and understanding of the processes and forces that are shaping tourism in this fascinating and dynamic region that is one of the focal points of global tourism This is essential reading for students researchers and academics interested in tourism in the growth region of Asia now and in the future

Social Sustainability, Climate Resilience and Community-Based Urban Development Cathy Baldwin,Robin King,2018-05-15 Urban communities around the world face increased stress from natural disasters linked to climate change and other urban pressures They need to grow rapidly stronger in order to cope adapt and flourish Strong social networks and social cohesion can be more important for a community s resilience than the actual physical structures of a city But how can urban planning and design support these critical collective social strengths This book offers blue sky thinking from the applied social and behavioural sciences and urban planning It looks at case studies from 14 countries around the world including India the USA South Africa Indonesia the UK and New Zealand focusing on initiatives for housing public space and transport stops and also natural disasters such as flooding and earthquakes Building on these insights the authors propose a

gold standard a socially aware planning process and policy recommendation for those drawing up city sustainability and climate change resilience strategies and urban developers looking to build climate proof infrastructure and spaces This book will be of great interest to students and scholars of urban studies resilience studies and climate change policy as well as policymakers and practitioners working in related fields *Urban Sustainability Transitions* Niki Frantzeskaki, Vanesa Castán Broto, Lars Coenen, Derk Loorbach, 2017-06-14 The world's population is currently undergoing a significant transition towards urbanisation with the UN expecting that 70% of people globally will live in cities by 2050 Urbanisation has multiple political cultural environmental and economic dimensions that profoundly influence social development and innovation This fundamental long term transformation will involve the realignment of urban society's technologies and infrastructures culture and lifestyles as well as governance and institutional frameworks Such structural systemic realignments can be referred to as urban sustainability transitions fundamental and structural changes in urban systems through which persistent societal challenges are addressed such as shifts towards urban farming renewable decentralised energy systems and social economies This book provides new insights into how sustainability transitions unfold in different types of cities across the world and explores possible strategies for governing urban transitions emphasising the co evolution of material and institutional transformations in socio technical and socio ecological systems With case studies of mega cities such as Seoul Tokyo New York and Adelaide medium sized cities such as Copenhagen Cape Town and Portland and nonmetropolitan cities such as Freiburg Ghent and Brighton the book provides an opportunity to reflect upon the comparability and transferability of theoretical conceptual constructs and governance approaches across geographical contexts *Urban Sustainability Transitions* is key reading for students and scholars working in Environmental Sciences Geography Urban Studies Urban Policy and Planning

Urbanization and Industrialization for Africa's Transformation, 2017 The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization Urbanization is one of Africa's mega trends with profound implications for the social economic environmental dimensions of growth and transformation Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa So far current policy narratives and frameworks on structural transformation and industrialization in Africa have largely failed to factor in the spatial and urban dimensions of industrialization and in particular the advantages presented by productivity enhancement and agglomeration effects generated by cities Yet the nexus between urbanization and industrialization is of particular relevance for Agenda 2063 and the 2030 Agenda on Sustainable Development Both agendas recognize urbanization as a critical factor for sustainable development It is also important to consider urbanization and industrialization in light of Africa's engagement with the Third United Nations Conference on Housing and Sustainable Urban Development Habitat III to be held in Quito Ecuador in October 2016 In this context African policy makers have

clearly recognized urbanization as an engine of structural transformation for inclusive and sustainable growth
