The Routledge International Handbook of Constructivist Grounded Theory in Educational Research Elaine Keane, Robert Thornberg, 2024-09-02 The Routledge International Handbook of Constructivist Grounded Theory in Educational Research provides a comprehensive overview of the state of the art in Constructivist Grounded Theory CGT methodology including core grounded theory tenets and processes as well as constructivist adaptations. It features CGT research from across the education sector including studies based in primary schooling post primary second level schooling and higher education. Across 5 parts and 20 chapters the book makes explicit how CGT techniques and processes were implemented in the field the ways in which challenges were navigated and how educational researchers aligned their research processes to constructivist principles. It offers exemplars of good practice by educational researchers from Australia, Ireland, Italy, Norway, Sweden, Switzerland, the UK and the USA. The Handbook synthesises learning from the experiences of CGT researchers in education to establish a framework of guidance for early career and more experienced researchers. Additionally it directly interrogates and considers how to address challenges in the implementation of high quality CGT and looks to the future of the methodology in educational research. This Handbook provides guidance and education specific examples to doctoral students and researchers who wish to use or are using CGT in educational research. It will also be of significant interest to qualitative researchers in other disciplines like sociology, psychology and nursing.

Students With Interrupted Formal Education Brenda Custodio, Judith B. O'Loughlin, 2017-02-23 New hope for our most vulnerable English learners. One of the guiding principles of effective English language teaching is for educators to know their students. And that in a nutshell captures the value of this book. The compassion that Custodio and O'Loughlin feel for our SIFE students, the commitment they have to educating them well and the comprehension they have of the assets these learners bring to the classroom are evident in the writing tools and vignettes they share. Deborah J. Short. Under the best of circumstances the academic demands of today's classrooms can be daunting to our English learners. But for the tens of thousands of newly arrived students with interrupted formal education even the social challenges can be outright overwhelming. Rely on this all-in-one guide from Brenda Custodio and Judith O'Loughlin for expert insight on how to build the skills these students need for success in school and beyond. Inside you'll find essential background on factors leading to interrupted education. Specific focus on refugee children and Latino immigrants. Guidance on building internal resilience for long term social and emotional health. Recommendations for creating supportive environments at the classroom, school and district level. About one thing Brenda and Judith are absolutely convinced: our SIFE students can learn and make progress often at a remarkable speed. But it's up to us, their educators, to provide the time, attention and a specific focus. Consider this book your first step forward.
