

## Netflix Case Study Analysis

### NETFLIX CASE STUDY

Does Netflix have deep enough pockets to outbid its rivals for broad access to the studios' TV and movie content? Can it convince the studios that it is not a direct competitor?

Netflix has managed to evolve with the ever changing technology industry in such a way that their ability to keep up with the changes in the market, gives Netflix the competitive advantage to stay ahead of the competition such as Walmart and Amazon.com. Today's market is moved by technology where Netflix offers its subscribers the ability to utilize their online movie service virtually on any device from cell phones, tablets, iPods, computers, Blu ray disc players, to game consoles like Xbox 360, PS3 and Nintendo Wii. Read also about NETFLIX SWOT Analysis 2017

With the convenience of not having to set foot outside the comfort of their home, a wide variety of movie titles to choose from and with approximately 15 billion subscribers paying a monthly service fee ranging from \$8.99 to \$47.99, Netflix has the business model and numbers to revolutionize the movie rental business while continuing to provide better services than the competition. Netflix reported revenues of 3.61 billion in 2012, numbers that definitely give them deep enough pockets to outbid its rivals for broad access to studio TV and movie content. Netflix can convince studios just by demonstrating how their 2009 partnership with Vizio & LG as well as the one with Google TV in 2010 can be of more profit to both companies than competing against each other.

How much time should Hastings and his executive team devote directly to hiring? Should he and his executive team be directly involved, or is this something that he should delegate?

The time I would devote to hiring may vary depending on each individual situation but most definitely I would plan ahead and have a system set up in order to ensure the most effective process in assessing each individual considered for hiring. The hiring process is something that should be delegated and done through human resource which in turn will ensure a thorough background check on possible candidates in hopes of selecting efficiently.

What could be provided in way of pay, perks and company culture that will attract, inspire and motivate top talent to achieve organizational goals?

I would consider offering a more relaxed and enjoyable environment where my employees would feel they have control of their time rather than feel they have someone watching over their every move. This would lead them to have a sense of trust coming from top management. Set up a system where every employee has the opportunity to share their

**The Language of Persuasion in Advertising. A Corpus-based Critical Discourse Analysis**  
 Seda Evirgen, 2021-05-04 Master's Thesis from the year 2020 in the subject English Language and Literature Studies  
 Linguistics grade 1.0 Justus Liebig University Giessen language English abstract The thesis at hand puts a special emphasis on the use of persuasive language in online native advertisements from The New York Times After careful examination the corpus will be compiled of three native advertisements from the field of technology by the sponsors Intel Dropbox and Slack

The limitation to these native advertisements and persuasive linguistic devices and techniques was necessary with regard to the scope of this thesis. As no linguistic analysis of native advertisements could be found, there also was no reference to follow. Therefore, the thesis at hand lays the foundation for further research in this area. The aim is to conduct a corpus-based Critical Discourse Analysis in order to investigate and answer two main questions: 1. Do online native advertisements make use of the same persuasion methods as previously researched for other advertising types? 2. What are the most prominent persuasive linguistic devices and techniques in the online native advertisements from The New York Times? In addition to the CDA, the corpus-based approach is expected to provide quantitative evidence of the existence of discourse and to identify repetitive linguistic patterns of persuasive language use in native advertising. The thesis will be structured as follows: First, the theoretical framework provides general information about the functions and characteristics of advertising while further focusing on native advertisement and the language of advertising. It continues with explaining the concept of persuasive language on the basis of ethos, logos, and pathos and introduces some powerful persuasive techniques in advertisement. Further linguistic devices of persuasive language on the phonetic, lexical, morphological, and syntactic level will be defined. Additionally, the concept of Critical Discourse Analysis will be explained in detail as the thesis at hand follows the CDA framework of Fairclough. The data collection method and data analysis procedure will be outlined in Chapter 3. This is followed by an analysis of three online native advertisements from the publisher The New York Times. After the analysis, the results will be presented and evaluated in order to assess the hypothesis. Finally, the conclusion provides a summary of the findings and suggests further research opportunities.
