Strawser, L. Hajjar, S. Levine, F. Naqvi, J. Witt, 2014-06-17 Does the lethal use of drones pose any new or difficult moral problems Or is the controversy over these weapons merely a distraction from deeper questions regarding the justice of war and the United States bellicose foreign policy Opposing Perspectives on the Drone Debate pulls no punches in answering these questions as five scholars square off in a lively debate over the ethics of drones and their contentious use in a point counterpoint debate The contributing authors are some of the foremost thinkers in international affairs today spanning the disciplines of philosophy sociology political science and law Topics debated range from the US s contested policy of so called targeted killing in Pakistan s tribal regions to fears over the damaging effects such weaponry has on our democratic institutions to the more abstract moral questions raised by killing via remote control such as the duty to capture over kill The Drone Debate Avery Plaw, Matthew S. Fricker, Carlos Colon, 2015-12-24 The Drone Debate offers a thorough investigation of the where why how and when of the U S s use of UAVs Beginning with a historical overview of the use of drones in warfare it then addresses whether targeted killing operations are strategically wise whether they are permissible under international law and the related ethical issues It also looks at the political factors behind the use of drones including domestic and global attitudes toward their use and potential issues of proliferation and escalation Finally the use of drones by other countries such as Israel and China is examined Each chapter features a case study that highlights particular incidents and patterns of operation in specific regions including Yemen Somalia Pakistan and Libya and strike types signature strikes personality strikes etc **The Times Parliamentary Debates** , 1893 Parliamentary Debates (Hansard).
