THE Journal, 1995

Tests in Print Oscar Krisen Buros, 1974

Role and educational effects of practical activities in science education Wadi Haddad, 1986 This paper surveys the literature on the role and educational effects of practical activities in science teaching Two issues are investigated a the validity of the assumptions on which the nature and functions of practical activities in science teaching have been determined and b the effects of a variety of practical activities on different components of the educational process mainly at the secondary level In particular the paper seeks current educational thinking and includes research findings at the

pre university levels These findings revolve around several questions related to science teaching including a what the relationship is between curriculum objectives and practical activities in science teaching b what the effect is of the nature of science on the nature and role of practical activities c what the psychological and pedagogical considerations are underlying practical activities and d what the relationship is between different modes and degrees of practical activities and different educational outcomes
