successful case studies in the nexus of green finance and carbon neutrality. This includes exploring novel financial instruments and models that encourage sustainable investments comprehending the socio economic impacts of moving towards a carbon neutral economy and showcasing policy mechanisms that have effectively integrated green finance and carbon neutrality. By amalgamating these insights we aim to guide policymakers, inform business practices, stimulate further academic exploration and ultimately accelerate the global journey towards a sustainable carbon neutral future. The scope of this Research Topic encompasses a broad range of themes at the intersection of green finance and carbon neutrality. We are particularly interested in empirical Original Research articles, in depth Reviews of current literature, Policy and Practice Reviews and case studies demonstrating the successful application of green finance strategies in achieving carbon neutrality. Potential topics include but are not limited to following areas: Development of innovative green financial instruments, Analysis of policy frameworks and regulations promoting carbon neutrality, Examination of the role of ESG Environmental Social Governance factors in investment decisions, Studies on the socio economic impacts of transitioning to a carbon neutral economy. Manuscripts that provide novel insights, propose unique models or offer critical perspectives on existing approaches are highly encouraged. By collating these diverse viewpoints we aim to further enrich the dialogue on sustainable development and carbon neutrality.
