with the best of intentions but don't have a clear enough plan to follow. Therefore no plan to stick to. This 8 week program is designed for you to be able to sculpt your body and get in great shape without having to leave the comfort of your home or spend countless hours grinding away in the gym. This is for ANYBODY from a newbie who has never exercised seriously before to a travelling executive who needs to squeeze a quick workout into an already hectic schedule. These workouts are relatively short and sweet and are designed to boost your metabolism with the high intensity interval training HIIT and Excess Post Exercise Oxygen Consumption EPOC philosophies. Psychologically it is also a lot easier to start a program when the workouts are very short you will barely notice the increase in duration as you progress. In a nutshell you bust your ass for a short period of time and your metabolism rate will remain elevated for longer meaning you burn more FAT. At first some may find it hard work so please don't push yourself to the point of passing out listen to your body and build up your stamina gradually if you NEED to rest after every exercise then do it but time your rest and try to reduce it gradually over the course of the program. The nutrition aspect is very simple and only has 2 main rules to follow as far as food is concerned. The less rules you have to follow the higher your chances of success. There is also a tendency to throw too much at your body at first you end up burning out and falling off the wagon. This program will build you up from the ground gently which will massively increase your chances of succeeding by sticking with the program. There is a lot of confusion and misinformation when it comes to diet and exercise I have made this program very easy to follow and applied rules that have proven to work time and time again. This is a no gimmicks no nonsense plan. This eBook contains the following information to ensure your success in the program: 18 mins workout day for week 1 8 week easy to follow nutrition plan 4 complete home exercise routines 20 video links to home exercises 10 golden rules to secure your success.
