R. Kothari,2013     Dissertation Research Methods Philip Adu,D. Anthony Miles,2023-09-11 Dissertation Research Methods A Step by Step Guide to Writing Up Your Research in the Social Sciences focuses specifically on the methodology for planning writing and submitting your dissertation thesis Written by two methodology experts in the social sciences the book provides a step by step guide through each stage of the dissertation process It covers all aspects of the methodological considerations needed from choosing a topic or research question developing a literature review identifying research gaps accessing potential study participants utilizing the right sampling strategies analyzing data and writing up findings Readers are introduced to the main research methods normally used in dissertations and their characteristics and they are guided to choose an appropriate research method for their study provide a substantial description of the selected method and articulate strong arguments in support of it The book is filled with templates exemplars and tools to help students write about methodology in their thesis and to equip readers to successfully troubleshoot any methodology challenges they may face This compact book will be of use to all graduate students and their supervisors in the Social Sciences and Education and Behavioural Sciences who are looking for a guide to working with robust and defensible methodological principles in their dissertation research and theses     *Social Science Research Methodology: Concepts, Methods and Computer Applications* George Kanire,2012-12-05 Document from the year 2012 in the subject Communications Methods and Research Logic Kampala International University course undergraduates and graduates language English abstract Researches fundamentals are of great importance in disciplines and interested people on searching various knowledge or solution to a phenomenon The main purpose of the book is to share scholarly knowledge about research and its complexity This book can be used to train the basics and techniques involved on doing inquiries from different views The experience shows that no one single cure for all diseases So when comes to research there is no single research methodology or technique which fits all circumstances Hence the book tries to identify a family of approaches towards various research situations and distinguish their outcomes Thus various disciplines example human resource management accounts and project management have different environmental set up i e matters in question study elements involved and the study plan can determine research context The study consulted scholars in different disciplines through their publications that explain various research methodologies Generally the books highlighted some technical guide lines on conducting researches and report writing which provide overview on research plans In chapter one the book tried to explain how to choose among the methods of inquiries It includes the meaning of research research approaches and types Chapter two addressing the types of variables deployed in a study Either chapter three tells how to generate research idea Rather the book through chapter four described how to develop a re searchable topics Meanwhile chapter five gives explanation on how

to carry out literature survey that forms a crucial part of studies. Then chapter six critically explains research designs and research management. The book concludes with the application of computer software in the research process. Therefore, the book is intended to guide researchers, academicians, and groom young researchers to conduct different inquiries. This is due to the fact that human activities and environmental changes created complexity in life as well as challenges. So far, challenges need answers from fundamental questions such as what, where, who, and how. It is the main reason for interested groups such as researchers, academicians, and practitioners to seek guidance during research. This is done to attain answers towards fundamental questions.

**THE IMPACT OF TELEVISION ADVERTISING ON CHILDREN** Dr. Anjali Y. Chaudhari, *Research Methodology Methods and Techniques* KOTHARI, Wiley, 1986-03-01 *The Indian Journal of Agricultural Sciences*, 2017 Flexible Management of Transfer Prices and Multiple Valuation Approach Based upon SAP ERP within the Context of International Controlling Cenk Yildirim, 2015-12-01 Master's Thesis from the year 2014 in the subject Business economics Controlling grade 1-7 University of Applied Sciences Fulda course Master of International Management language English abstract According to the estimations of the World Trade Organization, sixty percent of the whole world trade is being concluded within the multinational enterprises. This can be put down to the fact that globalization has had led the enterprises separate business processes into divisions and the concept of profit center has gained currency in this regard. As a result of vertical integration between these profit centers, there is an enormous volume of exchanged goods within multinationals. This development in the practice gave rise to debates on an already existing issue, Transfer Pricing, however from another dimension. The inter-company transfer of goods has gone beyond the domestic boundaries and become an important issue in the international context. International Transfer Pricing can be assumed as an opportunity as well as a confounding factor from the perspective of multinational enterprises. On the one side, it is possible to move profits between individual divisions and create tax advantages depending on the corporate tax rates in different tax jurisdictions. On the other side, it becomes more complex for companies to track down the effects of intra-company transfers, evaluate the efficiency of the divisions and the company as a whole, and make optimal decisions accordingly. At this point, some academicians propose using a multiple set of books to determine Transfer Prices. In so doing, they argue that managerial requirements can be met and optimal decisions can be reached for the good of the group as a whole. In the light of this information, a software product named SAP ERP comes to attention with its unique feature in terms of determining Transfer Prices flexibly. The multiple valuation approach in this system enables the user set Transfer Prices in different valuation techniques, i.e. legal view, group view, and profit center view. This study investigates the relationship between these two research objects, thus aims to verify whether and up to which extent implementing such a system is functional and beneficial by composing Transfer Pricing and managerial requirements that come along with it. **Guide to Indian Periodical Literature**, 2005 Nnamdi Azikiwe Journal of Political Science, 2012 Selecting Inventory Management and Control Models Bakari M.
