Kovacik, Clifford Creager, 1984-04-01 [How to Drive a Stick Shift](#) Dennis Chernyukhin, A complete step by step guide that will teach you everything you need to know. In 2018 I created a company called Shift Bay Area. My goal was to provide a fun and educational experience for people wanting to learn how to properly drive a manual transmission car and since then we've successfully instructed thousands of students and have grown to become Northern California's preferred stick shift driving school. Based on customer demand we decided to take our most popular behind the wheel stick shift driving lesson and expanded it into an eBook with over 150 illustrations to aid the written content. This eBook will cover high level conceptual topics 1st gear and clutch control, reverse gear, how to upshift to 2nd gear, proper upshifting and downshifting techniques in the higher gears and we'll finish with hill control where we'll learn about parking on hills and how to start from inclines. At the end of this eBook you'll have a complete overview of what's necessary to safely and properly operate a manual transmission car and we'll build your confidence so that you can use the skills you learn in the real world.
