Parallel structure, phrases & clauses, punctuation conventions, figurative language, spelling, vocabulary & more!

Why is it important to understand conventions, usage, and vocabulary? Why is it important to show your skill in these areas? Why does it matter?

Will any off this make a difference after you get out of high school? The answer is a resounding YES! Your college and career years will be easier and more valuable if you've mastered correct conventions and developed enriched vocabulary skills. Your grades will be better, and your potential for achieving college and career goals will be remarkably enhanced.

Suppose you're thinking of doing business with an online retailer. You might want to order a pair of jeans or a backpack. If you check out the website and it's filled

with links that don't work and errors in convention and usage, leaving you confused about items available for sale and their pricing, you're likely to move on to another site to make your purchase. That's a reality of life: If you find the site unclear and filled with errors, you likely won't trust the business, and you won't want to make a purchase. Instead, you'll seek out a site that offers clear information.

Similarly, if a potential or current employer is confused by your conventions and usage—or if the potential or current employer is not impressed by your vocabulary—the employer will likely consider moving on to find someone else to do the job.

Getting a strong handle on conventions, usage, and vocabulary will give you strong tools to achieve college, career, and general life goals.

## PARALLEL STRUCTURE

Imagine an architect who has spent time to design and develop a new building. Perhaps it is a spectacular structure with beautiful columns. No matter how gorgeous the columns are, if they are not parallel, the structure likely will fall. The columns will not be able to support the structure. As the building crashes to the ground, the architect will lose credibility.

The same is true of your sentence construction. Parallel structure is essential. If your sentences lack parallel structure, you can quickly lose credibility, and the power of your words can be discounted. Even if you have worked long and hard to complete research or literary analysis, your final product will not be able to stand up to scrutiny. You might wonder, Why is parallel construction so important for sentences? The answer is simple: It might be difficult, or impossible, for a reader to understand your meaning if your sentence lacks parallel structure. At the very least, the sentence will be awkward and will create confusion for the reader. How do you achieve parallel structure? Make certain that words serving the same function in a sentence have the same form. Check your sentences for parallel words, parallel phrases, and parallel clauses.

Be sure that coordinate parts of a sentence have parallel structure. How do you identify coordinate parts of a sentence? Look for coordinating conjunctions such as and, but, for, or, yet, and nor.

**EX:** The following sentence lacks parallel structure.

The actors understood the importance of the rigorous rehearsals, the elaborate costumes, and coming for the performance dates.

The following sentence has parallel structure. The words rehearsals, costumes, and dates are all nouns.

The actors understood the importance of the rehearsals, the costumes, and the performance dates.

**TIP:** Check for parallel structure when you use coordinating conjunctions, but items in a series, and use correlative conjunctions, such as either...or and neither...nor.

**Q&A** Q: Is there a quick way for me to check to be sure a sentence has parallel structure?

A: Yes. Ask yourself this question: Do words, or words groups of words, serving the same function have the same form? If the answer is no, then review so that their form is the same. If the answer is yes, then congratulations! Your sentence already has parallel structure.

**FYI:** Authors might intentionally develop sentences that lack parallel structure. The purpose is generally to emphasize a point or to portray a character in a specific light.

## Make your knowledge work for you!

On your own sheet of paper, write each sentence to provide parallel structure.

1. The tennis player enjoys tournaments, travel, and to receive awards.
2. Grinacing in pain, rubbing the sore muscles, and to work out again are all part of the tennis player's routine.
3. To be certain her games are the best they can be, the tennis player eats vegetables, drinks water, and will practice volley.

## PHRASES & CLAUSES

Students often confuse phrases and clauses. It's important to know the distinctions between the two, as you need to understand the rules that apply to each. Knowing the distinctions between phrases and clauses will also help you convey your specific meaning to your reader and add variety to your writing and presentations.

Phrases and clauses are both groups of related words. A clause contains a verb and a subject; a phrase does not. Even though it's made up of a group of words, a phrase acts as a single part of speech in a sentence.

**Q&A** Q: Can a phrase and a clause begin with the same subordinating conjunction?

A: Yes. You can determine whether the group of words is a phrase or a clause by looking for a verb and a subject.

**EX:** A phrase lacks a verb and a subject.

The controversy escalated after determination of guilt.

A clause includes a verb and a subject.

The controversy escalated after guilt was determined.

**EX:** preposition modifiers object of the preposition

We looked through the new telescope.

prepositional phrase

preposition object of the preposition

The astronomer handed the notes to his

prepositional phrase

- A prepositional phrase can act as an adjective or an adverb. When it acts as an adjective, it can be referred to as an adjectival phrase. When it acts as an adverb, it can be referred to as an adverbial phrase.

**Q&A** Q: Does case matter for a pronoun serving as the object of a preposition?

A: Yes. Be sure to use the objective case form, not the subjective case form.

Objective Case

me, you, her, him, it, us, them

Subjective Case

I, you, she, he, it, we, they

## Types of Phrases

### Prepositional Phrase; Adjective & Adverbial Phrases

► A prepositional phrase consists of a preposition, its object (usually a noun or pronoun), and any words that modify the object.

**FYI:** The object of a preposition can also be a nominal, a word that functions as a noun. A nominal is a noun substitute, such as a gerund, a nominal adverb, or a nominal adjective.

1. Take a look at the following prepositional phrase. It's the same in both sentences, but it acts as an adverb in one and an adjective in the other.
