Shifting Power in Asia-Pacific? Enrico Fels, 2016-11-03 This book investigates whether a power shift has taken place in the Asia Pacific region since the end of the Cold War By systematically examining the development of power dynamics in Asia Pacific it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour With a special emphasis on Sino-US competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power CIAP that includes 55 variables for 44 regional countries and covers a period of twenty years Moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts By addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing

Critical Perspectives on Food Sovereignty Marc Edelman, 2017-10-02 This volume is a pioneering contribution to the study of food politics and critical agrarian studies where food sovereignty has emerged as a

pivotal concept over the past few decades with a wide variety of social movements on the ground experiments and policy innovations flying under its broad banner Despite its large and growing popularity the history theoretical foundations and political program of food sovereignty have only occasionally received in depth analysis and critical scrutiny This collection brings together both longstanding scholars in critical agrarian studies such as Philip McMichael Bina Agarwal Henry Bernstein Jan Douwe van der Ploeg and Marc Edelman as well as a dynamic roster of early and mid career researchers The ultimate aim is to advance this important frontier of research and organizing and put food sovereignty on stronger footing as a mobilizing frame a policy objective and a plan of action for the human future This volume was published as part one of the special double issue celebrating the 40th anniversary of the Journal of Peasant Studies Sustainable Food Systems Robert Biel,2016-12-05 Faced with a global threat to food security it is perfectly possible that society will respond not by a dystopian disintegration but rather by reasserting co operative traditions This book by a leading expert in urban agriculture offers a genuine solution to today s global food crisis By contributing more to feeding themselves cities can allow breathing space for the rural sector to convert to more organic sustainable approaches Biel s approach connects with current debates about agroecology and food sovereignty asks key questions and proposes lines of future research He suggests that today s food insecurity manifested in a regime of wildly fluctuating prices reflects not just temporary stresses in the existing mode of production but more profoundly the troubled process of generating a new one He argues that the solution cannot be implemented at a merely technical or political level the force of change can only be driven by the kind of social movements which are now daring to challenge the existing unsustainable order Drawing on both his academic research and teaching and 15 years experience as a practicing urban farmer Biel brings a unique interdisciplinary approach to this key global issue creating a dialogue between the physical and social sciences The Age of Migration Hein de Haas,Stephen Castles,Mark J. Miller,2019-11-21 Long established as the leading textbook on migration and used by students and scholars alike all over the world this fully revised and updated sixth edition continues to offer an authoritative and cutting edge account of migration flows why they occur and their consequences for both origin and destination societies International migration is one of the most emotive issues of our times reforging societies around the world and shaping debates on security national identity and sovereignty in profound ways The expert authors of this book provide a truly global and interdisciplinary introduction to this perennially important topic with chapters covering all of the world s regions and spanning the nineteenth century to the present day Exploring the significance of migration in relation to recent events and emerging trends from the policies of the European Union to the Great Recession this text helps to shed light on the often large gap between the rhetoric and realities of migration For students of migration studies in disciplines as wide ranging as politics sociology geography area studies anthropology and history this is an indispensable guide whether already familiar with the subject matter or approaching the topic for the first time New to this Edition Charts the contemporary politics of migration including the latest statistical data

summary of policy developments and shifts toward anti immigrant politics and Islamophobia A brand new chapter on Categories of Migration used to describe migrants and analyse migration including a discussion on the topical issue of climate refugees Extended discussion of the impacts of migration and development in origin countries in a new separate chapter at the end of the book Improved coverage of migration trends in the former Soviet Union and Eastern Europe and Central Asia Offers a better balance between Western and non Western regions and perspectives on migration Draws on up to date global data on migration and migration policies A Migration Policy Toolbox providing a comprehensive overview of different types of migration policies A new glossary with definitions of key terms in migration which are also highlighted throughout the text Accompanying online resources for this title can be found at bloomsburyonlineresources.com the age of migration 6th edition These resources are designed to support teaching and learning when using this textbook and are available at no extra cost The Age of Migration is published by Bloomsbury Academic In the United States and its dependencies Canada Mexico and the Philippines it is distributed under licence by Guildford Press *The Law Society's Gazette* ,1975 Papers on Subjects in Agricultural Science ,1869 **Agricultural Science** ,2010 **Agricultural Science** Caribbean Examinations Council,2006 Agricultural Science G.
