 makes a forceful case that only by speaking to matters of the spirit can liberals root their belief in economic justice in people
 s deepest aspirations in their sense of purpose and self worth The New York Times When Gene Sperling was in charge of
 coordinating economic policy in the Obama White House he found himself surprised when serious people in Washington told
 him that the Obama focus on health care was a distraction because it was not focused on the economy How he asked was the
 fear felt by millions of Americans of being one serious illness away from financial ruin not considered an economic issue Too
 often Sperling found that we measured economic success by metrics like GDP instead of whether the economy was
 succeeding in lifting up the sense of meaning purpose fulfillment and security of people In Economic Dignity Sperling frames
