

## Investigative task chapter 7: smoking

Investigating further into the smoking behaviour of the victim, it appears that the deceased烟民 (smoker) smoked cigarettes and pipes. You have noted the name of another victim, including deceased relatives. From research, you also note that this person regularly attended the deceased as a personal attendant because cigarettes were often taken away. Now it is your task to suggest evidence that would allow the police to determine if the deceased smoked cigarettes and pipes.

The investigation further reveals that the deceased often smoked cigarettes and pipes when visiting other persons and places. These occasions included regular visits to the deceased's smoking and non-smoking friends and relatives. You are asked to draw conclusions regarding the deceased's smoking and non-smoking behaviour based on the information available and to suggest evidence that would allow the police to determine if the deceased smoked cigarettes and pipes when visiting other persons and places.

After examining the cigarette smoking habit from the deceased, you have noted that the deceased smoked cigarettes and pipes. The deceased was a non-smoker and had never smoked CIGARS. Many times the deceased would smoke their CIGARS.
