A Framework to Guide Selection of Chemical Alternatives National Research Council,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Board on Chemical Sciences and Technology,Committee on the Design and Evaluation of Safer Chemical Substitutions: A Framework to Inform Government and Industry Decisions,2014-10-29 Historically regulations governing chemical use have often focused on widely used chemicals and acute human health effects of exposure to them as well as their potential to cause cancer and other adverse health effects As scientific knowledge has expanded there has been an increased awareness of the mechanisms through which chemicals may exert harmful effects on human health as well as their effects on other species and ecosystems Identification of high priority chemicals and other chemicals of concern has prompted a growing number of state and local governments as well as major companies to take steps beyond existing hazardous chemical federal legislation Interest in approaches and policies that ensure that any new substances substituted for chemicals of concern are assessed as carefully and thoroughly as possible has also burgeoned The overarching goal of these approaches is to avoid regrettable substitutions which occur when a toxic chemical is replaced by another chemical that later proved unsuitable because of persistence bioaccumulation toxicity or other concerns Chemical alternative assessments are tools designed to facilitate consideration of these factors to assist stakeholders in identifying chemicals that may have the greatest likelihood of harm to human and ecological health and to provide guidance on how the industry may develop and adopt safer alternatives A Framework to Guide Selection of Chemical Alternatives develops and demonstrates a decision framework for evaluating potentially safer substitute chemicals as primarily determined by human health and ecological risks This new framework is informed by previous efforts by regulatory agencies academic institutions and others to develop alternative assessment frameworks that could be operationalized In addition to hazard assessments the framework incorporates steps for life cycle thinking which considers possible impacts of a chemical at all stages including production use and disposal as well as steps for performance and economic assessments The report also highlights how modern information sources such as computational modeling can supplement traditional toxicology data in the assessment process This new framework allows the evaluation of the full range of benefits and shortcomings of substitutes and examination of tradeoffs between these risks and factors such as product functionality

product efficacy process safety and resource use Through case studies this report demonstrates how different users in contrasting decision contexts with diverse priorities can apply the framework This report will be an essential resource to the chemical industry environmentalists ecologists and state and local governments

Prep Review Prep Review,2011-05-19 The book offers a comprehensive look at college preparatory boarding schools in the United States Canada and the United Kingdom through the eyes of recent graduates who are now attending prestigious colleges and universities such as Harvard MIT Princeton Yale Oxford and Cambridge The approach is distinctive giving readers the opportunity to get the real inside story from their peers and learn more about what the schools are like than the youngsters and their parents could learn in a campus visit or standard guidebook The book does a great job presenting a wealth of information in a diverse array of voices Student readers will no doubt feel that the reviewers quoted in the book shared many of their questions and concerns as students and parents are likely to appreciate the frankness of the reviewers comments as well Excerpts from the book My college counselor also had good relationships with college admissions officers and was able to update me on how they d reacted to my applications In the end I applied to Harvard MIT Stanford Harvey Mudd and Caltech California Institute of Technology and I got into all of them so I was happy with my college counselor s efforts and the efforts of the CCO as a whole in promoting my application as well as in helping me decide where I wanted to go MIT student Students at Groton tend to be either very smart very rich or both because some people just seem to have it all Many kids have attended private schools their whole lives The school favors well rounded individuals Athletic recruits also have to be intelligent In my time at Groton the kids who were not motivated enough to get through the school s rigors ended up leaving The admissions process requires an interview during which I recommend candidates dress conservatively while showing themselves to be original thinkers Harvard student The British exam system is for the most part based on assessment objectives tick the boxes and you re guaranteed a great result At Eton while you are taught to tick the boxes this is merely a preliminary measure the emphasis is on going beyond the exam and enjoying the subject in all its depth Oxford student Gaining admission to St Albans can prove quite difficult because it is arguably the most

selective school in the Washington D C area However distinguishing oneself above other applicants is no mystery Performing well on the SSATs and the ISEEs certainly helps the admissions officers look at an applicant more favorably However the dynamic applicant that St Albans seeks extends far beyond standardized tests University of Pennsylvania student Boarding schools in the United States Cate School Choate Rosemary Hall Cranbrook Schools Deerfield Academy Groton School Hotchkiss School Kent School Lawrenceville School Loomis Chaffee School Mercersburg Academy Middlesex School Milton School Nobles and Greenough School Northfield Mount Hermon School Peddie School Phillips Exeter Academy Phillips Academy Andover St Albans School St George s School St Paul s School Tabor Academy Thacher School Webb Schools Boarding schools in the United Kingdom Benenden School Cheltenham Ladies College Downe House School Eton College Fettes College King s School Canterbury Oundle School Radley College Rugby School Sevenoaks School Shrewsbury School St Paul s School London St Swithun s School Tonbridge School Westminster School London Winchester College Boarding schools in Canada Bishop Strachan School St Michaels University School St George s School Vancouver Get instant online access to hundreds of reviews and rankings by MIT Ivy League and Oxbridge educated insiders <http://www.PrepReview.com> and facebook.com/PrepReview to win a free book
