Convergent Journalism: An Introduction Vincent F. Filak, 2014-10-30 Convergent Journalism An Introduction is a pioneering textbook that will teach you how to master the skills needed to be a journalist in today's converged media landscape. This book shows you what makes a news story effective and how to identify the best platform for a particular story whether it's the Web, broadcast, or print. The bedrock tenets of journalism remain at the core of this book, including information dissemination, storytelling, audience engagement. After establishing these journalism basics, the book goes into great detail on how to tailor a story to meet the needs of various media. Vincent F. Filak has brought this second edition completely up to date through a thorough reorganization of the chapters, which provides a newer, more practical approach focused on how to do convergent journalism rather than simply observing the current state of converged media. A number of new pedagogical features to improve learning and retention, including examples, exercises, breakout boxes, and more. Coverage of additional topics such as issues of law and ethics in digital media and also writing for mobile platforms and social media. A companion website with links to additional examples of quality text, images, and multimedia for students, as well as an instructor site with a test bank, suggested exercises, and discussion questions.

Public Relations Writing Worktext Joseph M. Zappala, Ann R. Carden, 2010-04-02 Public Relations Writing Worktext provides the fundamental knowledge and the basic preparation required for the professional practice of public relations writing. This textbook introduces readers to public relations and writing, providing an overview of the four-step public relations process, in addition to defining and detailing the writing activities involved. It presents in-depth information on the writing formats and approaches used in implementing strategic public relations plans and offers instruction for developing all types of writing assignments, starting with memos, proposals, and news releases and moving on to the more complex tasks of advocacy writing, newsletters, crisis planning, and online communication. Examples accompany the discussions, providing guidance and structure for the varied writing activities. Retaining the approach of the second edition, this text incorporates numerous changes and updates, making it suitable for use as a primary course text. Updates include increased focus on writing for the web, blogs, and electronic media, including information on writing social media releases and a new chapter entitled New and Social Media, a new planning outline to help writers develop more effective messages, expanded checklists for writers to reference when working on assignments, additional examples of effective public relations writing by leading companies in a variety of organizational settings, including Mattel, UPS, Burger King, Sara Lee, Xerox, Frito Lay, and many more. New assignments based on topics, issues, and problems that public relations professionals in all sectors face today. Restructured content for improved writing flow and consistency. Full instructor manual available via the Support Material link on www.routledge.com/9780415997546. Authors Joseph M. Zappala and Ann R. Carden offer a clear and engaging introduction to the writing activities involved in public relations practice, resulting in a valuable resource for professionals as well as a practical classroom text for students planning careers in public
