Subject headings may be used if they fit with the style of the paper. Because the introduction is identified by its place in the paper, no separate heading is needed.

Approximately 1.4 million women in the United States are battling with the disease anorexia nervosa (AN) which is described as "one of the least understood and most intractable of all mental illnesses" (Schindelhette, Sandler, Nelson and Seaman, 2003, p. 136). Many of the victims of this disease will battle it for the rest of their lives. However, if AN is diagnosed early, during the teen years, it is possible to cure it with appropriate treatment (Cooper, 2001). Therefore, adolescent women struggling with AN need effective treatment, and today, after four decades of research, there is an increasing number of treatment options ranging from counseling, to nutritional therapy, to medication. Yet, some researchers and victims still advocate that there is a need for further research in this area (Kaplan, 2002; Hendricks, 2003).

When doing an in-text citation for a direct quote, make sure to use the author, year published and the page number

Level 1 headings are centered and in boldface (chart, p. 62 APA Handbook)

Treatments

Upon recognizing symptoms, such as strict dieting, weight loss, binge eating or fasting, feeling dizzy, weak, and/or depressed, in addition to insomnia, family members should seek out the advice of a health care provider. The health care provider will take a complete medical history as well as do a physical examination (Cooper, 2001). After this process is complete, then the doctor can begin treating the patient with AN, which may include referrals to specialists in counseling, nutrition and other medical fields.

Counseling

One of the more traditional forms of treatment is counseling, which is also referred to as psychotherapy. The goal of psychotherapy is to work with the patient so that through therapy she will be able to control her eating and maintain her body weight.

Level 2 headings are flush left and in boldface

Myth or Reality?* Jean Cédric Obame Emane,2018-09-18 Thesis M A from the year 2010 in the subject American Studies Culture and Applied Geography grade 15 20 Omar Bongo University course R daction du M moire de Ma trise language English abstract Whether we are in cinema economy or politics there is a great debate concerning the issues of representation in the United States In fact it is a permanent debate drawing the attention of people as it is difficult to assert if a group is well represented So the question of representation has already and always been debated by university professors and specialists of the issue and continues to be debated But some questions are worth asking at which level can we talk about representation Or when can we say that a group is actually represented These questions lead us to deal with minority representation Here we want to consider the notion of visibility and invisibility In the United States there is what we term visible minority and invisible minority Representation here is not about telling how many African Americans have succeeded in various fields It is not about the number of Blacks who succeeded in cinema economy or politics The issue of representation goes beyond that perception Of course it does not imply that the quantity of Blacks advancing socially cannot be taken into account But the point is that if we look at this we shall notice that their representation is not that visible For this reason we find useful to transcend that perception of representation Our paper focuses on representation as the fact of being visible in the mainstreams For instance concerning minority visibility can we

say that Hispanics and African Americans have the same representation We do not think so This is why the notion of visible and invisible minority has to be considered Representation here is more related to merit Take for example the case of the business world do we know an icon among Hispanics whose visibility is worldwide Certainly not However we have Oprah Winfrey whose fame has reached worldwide as the only Black billionaire Take also politics with President Obama And finally consider American cinema can we speak about Hispanic or Chinese cinema in the United States today Certainly not Yet we can speak about African American cinema because it is visible That is what we have termed as minority visibility
