**Clinical Research in Occupational Therapy, Sixth Edition** Martin S. Rice, George Tomlin, Franklin Stein, 2024-06-01

In this new edition Dr George Tomlin joins Dr Martin S Rice and Dr Franklin Stein to add expertise and knowledge of the occupational therapy field. With the combined knowledge and skills of the authors Clinical Research in Occupational Therapy Sixth Edition includes many valuable updates and enables the graduate student and clinical researcher to carry out a research study from the formulation of a research hypothesis to collecting, analyzing and interpreting data in user friendly step by step procedures. This Sixth Edition brings noteworthy changes, improvements and enhancements including the following: A thorough update of the published research in occupational therapy and health care. Major revisions in all the chapters. The addition of a new chapter on single case experimental research. Updated research boxes and contemporary examples of both quantitative and qualitative research. Updated compilation of tests and evaluations used by occupation therapists in research studies as outcome instruments and for clinical assessments. Revision and additions to the glossary of terms and statistics. Updated examples of the institutional review board application forms. Updated landmarks in the history of occupational therapy. Updated interfacing example with a popular statistical software including data organization, analysis and interpretation. Updated statistical tables. Clinical Research in Occupational Therapy Sixth Edition is a valuable resource for students, clinicians and researchers. The text can be used as a complete self tutorial that provides the reader with the knowledge and skills to design and carry out a research project from hypothesis through data collection and analysis. The text is written to help the reader evaluate the quality and rigor of research studies. The Sixth Edition incorporates recent research in occupational therapy to help the reader design a feasible research project and understand and appreciate the literature of the field.
