

from its present temperature by -20 °C to achieve saturated conditions at the dew-point temperature. [Hint: The present temperature must cool down to the dew-point temperature for its water content to equal the air's water vapor capacity.]

5. Using the same air mass from Question 3, assume that it warms to 25°C on a hot afternoon and maintains the same specific humidity of 1.8 g/kg. What is the relative humidity of the air mass at this time? 19 %. [Hint: Find the maximum specific humidity for air at 25°C.] Show your work:

$$RH = \frac{1.8 \text{ g/kg}}{20 \text{ g/kg}} \times 100 = 19\%$$

6. Assuming that a different air mass has a relative humidity of 40% at a temperature of 25°C, what is the actual humidity content, expressed as g/kg? _____ g/kg. Thus, by knowing relative humidity and air temperature, relative humidity provides us with an indirect method of determining the actual water vapor content of the air.
7. Compare an air mass over the hot, arid Sahara with an average specific humidity of 12 g/kg, to an air mass in the moist midlatitudes with an average of 6 g/kg specific humidity.

- a) What is the relative humidity of a 40°C air mass with 12 g/kg specific humidity? 25%
- b) What is the relative humidity of a 10°C air mass with 6 g/kg specific humidity? 79%

$$\frac{12 \text{ g/kg}}{48 \text{ g/kg}} \times 100 = 25\%$$

$$\frac{6 \text{ g/kg}}{7.6 \text{ g/kg}} \times 100 = 79\%$$

8. Questions 8 through 11 show how relative humidity changes as cold, dry outside air is brought inside and warmed. Figure 12.1 shows that as air warms, the maximum specific humidity increases. Therefore, if the air warms but the amount of water vapor stays the same, its relative humidity decreases. Because of this, many people who live in climates with cold winters use humidifiers in their homes to make the air more comfortable.

- a) After looking at Figure 12.1, given outside conditions of 0°C and a specific humidity of 1.8 g/kg, what is the relative humidity of the atmosphere?

$$\frac{1.8 \text{ g/kg}}{3.8 \text{ g/kg}} \times 100 = 47\%$$

169%

- b) What is the maximum specific humidity of air at 21°C? _____
- c) What would the relative humidity of that air be if you brought it inside your house and warmed the air to 21°C?

9. Building engineers recommend that for optimal comfort, inside air should be 21°C, with 50% relative humidity.

- a) What is the specific humidity of air at 21°C with 50% relative humidity?

- b) How many grams of water vapor per kilogram of air would you need to add to bring the humidity up to 50% at 21°C, if the air initially had 1.8 g/kg of water vapor?

Applied Physical Geography Lab Answers

Julia Schneider

Applied Physical Geography Lab Answers:

Applied Physical Geography Robert W. Christopherson, Gail L. Hobbs, 1999-12 PLEASE PROVIDE COURSE INFORMATION Ideal for use with any text on Physical Geography this laboratory manual contains step by step exercises that help students apply essential geographic principles methods and tools to better understand Earth and its systems Organization of each lab exercise chapter entails an introduction key terms and concepts listing objectives of the chapter and a listing of materials and sources needed to complete the exercises The initial laboratory exercise is called the Prologue Lab and is unique to this manual The assignments in the Prologue are meant to span the entire term and will provide students with the tools of spatial analysis that are at the core of geography *Applied Physical Geography* Robert W. Christopherson, Charles E. Thomsen, 2011-07-15 This spiral bound geography lab manual contains 21 lab exercises that are divided into logical sections Each exercise comes with a list of key terms and learning concepts Integrated into all of the exercises are links to Google Earth KMZ files available at www.mygeoscienceplace.com allowing students to experience and manipulate topographic maps in digital elevation mode relief as they work through problems This revised edition comes with updated shaded relief topographic maps to view with stereolenses a revised chapter on geographic information systems that contains online activities that allow students to use ArcGIS Explorer and updated Google Earth tm activities An answer key is available for teachers to download from www.pearsonhighered.com/irc *Elemental Geosystems* Robert W. Christopherson, 2007 **Instructors Resource Manual** Robert W. Christopherson, 2003 **Scientific and Technical Aerospace Reports**, 1987 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database *El-Hi Textbooks in Print*, 1976 **Preliminary Field Results for a Mid-ocean Dynamics Experiment (MODE-O)** William John Gould, Carl Wunsch, W.
