

Subsequently, the beginning of an abortion emerges from certain elements evolving from the consent to sex and avoidance of contraception. From the first point of view, such a fetus in the womb may be considered by the mothers as a new born in development, which hinders any act of abortion. Personally, many people are often objective to any abortive practices as a result of the intuitive feeling that the fetus is too is a human in development. Democracy and advocacy for idealistic society will often give preference to the bodily autonomy of a woman irrespective of whether such autonomy will harm the fetus.

Therefore, ethics and legal dimensions of abortion greatly revolve around the conflicting aspects of ethics that would force a woman to make intuitive decisions. If for instance, abortion were legalized in a state, the woman would have to carry the fetus till the due time to give birth to a healthy baby. However, such an act would hinder the freedom of the woman as well as the bodily autonomy involved. Robertson (2001) argues that such prevention is not ethical of the state authorities. Nonetheless, most legal documents about abortion point to a state whereby issues related to abortion dwell more on bodily privacy. Many countries like Chile consider abortion as unlawful while in Canada, the act is permitted.

Secondly, the process of in vitro also has a variety of moral issues as well legal dimensions as illustrated below. Robertson (2003) asserts that the use of the spouse's fertilization elements like the sperm or the ova is ethically acceptable since it fulfill the religious wish of procreation. However, when originating from another donor, such actions are considered to be unethical. Besides, the process of test tube fertilization often implies that eggs are fertilized in large numbers and only one successful one is chosen while the rest are discarded or frozen. If such combinations are discarded, Robertson refers to it as murder and utterly unethical. However, the challenges of what is to be done with such fertilized eggs may come up, especially when the couple

The Language of Argument Daniel Lamont McDonald,1980 Should abortion be legal? Faith Kamau,2014-04-10 Essay from the year 2010 in the subject Sociology Medicine and Health grade B The University of Texas at Austin language English abstract From research which was carried by the World Health Organization there are about four thousand abortions made every single day in America And world wide the numbers of abortions in a single day are about one hundred twenty thousand The issue on whether abortion should be legalized is still bothering many people s minds and the question is what is abortion This can be referred to as pregnancy destruction accidentally in form of a miscarriage or by someone s willed Therefore we would be weighing the merits and demerits of abortion and discover if abortion legalization is a significant right women should have Abortions that come up as a result of rape and possible health concerns to a mother are about 7% from the research made by doctors But social and personal factors are the major cause for most of the abortions
