Terrorism and Homeland Security Dale L. June,2010-09-29 Since 9 11 the terms homeland security and terrorism have become firmly entrenched in our lexicon The days of walking through a simple metal detector at the airport are over and our security landscape is forever changed Terrorism and Homeland Security Perspectives Thoughts and Opinions brings together the work of academic researchers and law Infantry ,2008 Terrorism William E. Dyson,2010-04-07 This handbook introduces the reader to the field of terrorism investigation Describing how terrorists operate and how they differ from other criminals it provides an outline of how terrorism investigations should be conducted By helping investigators to develop skills and knowledge this guide helps them to prepare prosecutable cases against terrorists A practical handbook with extensive appendices what to do in response to a terrorist attack what not to do in response to a terrorist attack bringing terrorists to justice domestic terrorist attacks 2005 2007 Key terms and concepts and selected extremist terms also included Stand Down James Hasson,2019-08-27 James is a terrific reporter and this account of the effort to shape our military to reflect left wing social values rather than the priorities of readiness and capability is vital BEN SHAPIRO bestselling author of The Right Side of History and host of The Ben Shapiro Show Stand Down is a must read for anyone who wants to understand how progressives have forced radical changes on our military no matter how much harm it does to combat readiness MOLLIE HEMINGWAY bestselling coauthor of Justice on Trial Stand Down exposes one of the greatest but least discussed scandals of our era Time and time again the Obama administration undermined the military to advance left wing political goals and Hasson brings the goods to prove it Every patriotic American who cares about the military needs to read this book BUCK SEXTON Former CIA Counterterrorism Officer Host of The Buck Sexton Show James Hasson makes a powerful and convincing case in this exceptionally well written book Stand Down is a scathing indictment of the Obama administration s misuse of the military as a vehicle for progressive social change at the expense of men and women in uniform SEAN PARNELL Army combat veteran and New York Times bestselling author of Outlaw Platoon Safe space stickers on office doors at the Naval Academy Officers apologizing for microaggressions against Air Force cadets An Army gender integration study urging an end to hyper masculinity in combat arms units Power Point presentations teaching commanders about male

pregnancy A cover up as senior officials placed their thumbs on the scales to ensure the success of the first female candidates at the Army's legendary Ranger School. These are just a few of the examples documented in this explosive book *Stand Down: How Social Justice Warriors are Sabotaging the U.S. Military* by former Army Captain Afghanistan veteran and attorney James Hasson. Hasson exposes the relentless campaign by powerful Obama administration ideologues to remake the culture and policies of the U.S. military even over the explicit objections of military leaders. He presents evidence drawn from government documents and exclusive interviews with more than forty sources including high ranking officers and Pentagon insiders that progressive activists in the Obama Administration used the U.S. Military as their preferred vehicle to advance the progressive agenda. The stories paint a troubling picture of what happens when leftwing political operatives impose a political agenda on our nation's military. They render our forces less effective, place our military men and women in greater danger and compromise the military's sole objective to protect America by winning the nation's wars. Military readiness is a term politicians and pundits often use in the abstract to describe our military's ability to defeat its adversaries. But it ultimately describes how well we have prepared and equipped a young soldier or sailor to prevail over an enemy determined to do them harm. Hasson makes a compelling case that our nation has a moral obligation to ensure that the sons and daughters it sends to war have the best possible chance of victory which means we must embrace only the policies that help us win wars and reject those that don't. Political agendas of any kind invite corruption, jeopardize lives and undermine the mission. They have no place in military policy. A principle that the Obama administration either disdained or failed to understand.
