## **Army Drawdown And Restructuring Background And Issues For Congress:**

**Army Drawdown and Restructuring** Andrew Feickert,2012 On January 26 2012 senior DOD leadership unveiled a new defense strategy based on a review of potential future security challenges current defense strategy and budgetary constraints This new strategy envisions a smaller leaner Army that is agile flexible rapidly deployable and technologically advanced This strategy will rebalance the Army s global posture and presence emphasizing where potential problems are likely to arise such as the Asia Pacific region and the Middle East As part of the Administration s proposal two heavy brigade combat teams HBCTs in Europe will be eliminated out of a total of eight BCTs that will be cut from Active Army force structure The Army has stated that it may cut more than eight BCTs Army endstrength will go from 570K in 2010 to 490K during the Future Year Defense Plan FYDP period As part of this reduction the Army would no longer be sized to conduct large scale protracted stability operations but would continue to be a full spectrum force capable of addressing a wide range of national security challenges The Army National Guard and Army Reserves were not targeted for significant cuts Army leadership stated the impending decrease in Active Duty Army force structure would place an even greater reliance on the National Guard and Reserves There will likely be a human dimension of the Army s drawdown Troops have received an unprecedented level of support from the American public and those soldiers leaving the service voluntarily and perhaps involuntarily might have strong personal feelings about leaving the Army and their comrades after multiple deployments to combat zones The Army drawdown will likely be achieved in large degree by controlling accessions i e the number of people allowed to join the Army If limiting accessions is not enough to achieve the desired endstrength targets the Army can employ a variety of involuntary and voluntary drawdown tools authorized by Congress such as Selective Early Retirement Boards SERBs and Reduction in Force RIF Voluntary tools that the Army might use include the Voluntary Retirement Incentive the Voluntary Separation Incentive Special Separation Bonuses Temporary Early Retirement Authority the Voluntary Early Release Retirement Program and Early Outs The Administration s proposals to drawdown and restructure the Army have a number of strategic implications These implications include the capability to conduct stability and counterinsurgency operations the ability to fight two simultaneous wars shifting strategic emphasis to the Asia Pacific region and how the Army will maintain presence in the Middle East Other related concerns include reducing Army presence in Europe and the Army s role in the rest of the world Army Drawdown and Restructuring Congressional Research Congressional Research Service,2014-10-31 On January 26 2012 senior DOD leadership unveiled a new defense strategy based on a review of potential future security challenges current defense strategy and budgetary constraints This new strategy envisions a smaller leaner Army that is agile flexible rapidly deployable and technologically advanced This strategy will rebalance the Army s global posture and presence emphasizing where potential problems are likely to arise such as the Asia Pacific region and the Middle East Military Service and American Democracy William A. Taylor,2020-06-09 When I became secretary of defense

Ashton B Carter said when announcing that the Pentagon would open all combat jobs to women I made a commitment to building America's force of the future In the twenty first century that requires drawing strength from the broadest possible pool of talent That pool of talent and how our nation's civilian and military leaders have tried to fill it is what Military Service and American Democracy is all about William Taylor chronicles and analyzes the long and ever changing history of that often contentious and controversial effort from the initiation of America's first peacetime draft just before our entry into World War II up to present day conflicts in Iraq and Afghanistan A history that runs from the selective service era of 1940 1973 through the era of the All Volunteer Force of 1973 to the present his book details the many personnel policies that have shaped controlled and defined American military service over the last eight decades Exploring the individual and group identities excluded from official personnel policy over time African Americans women and gays among others Taylor shows how military service has been an arena of contested citizenship one in which American values have been tested questioned and ultimately redefined Yet we see how this process has resulted in greater inclusiveness and expanded opportunities in military service while encouraging and shaping similar changes in broader society In the distinction between compulsory and voluntary military service Taylor also examines the dichotomy between national security and individual liberty two competing ideals that have existed in constant tension throughout the history of American democracy *The Pursuit of Technological Superiority and the Shrinking American Military* Daniel R. Lake, 2019-01-22 Why has the US military begun to suffer from overstretch in recent decades Why is one of the largest militaries in the world and the most expensive by far periodically stressed by the operational demands placed upon it This book argues that recent problems with overstretch are the result of a heavy reliance on technology to solve tactical and strategic problems Over the last seven decades the US armed services have consistently chosen to push the technological frontier out in an effort to first gain and then maintain qualitative superiority over potential foes The high procurement and support costs associated with cutting edge weapon systems has resulted in a military that is shrinking in both absolute size and in the relative share of combat forces The culmination of this process is a US military that increasingly lacks the capacity needed to conduct operations without putting significant stress on its personnel and equipment Lake argues that this pattern is a manifestation of an American cultural disposition favoring technology He shows that this affinity for technology is present in the organizational cultures of all the armed services though not to the same degree By examining procurement programs for each armed service this book reveals how attempts to develop and leverage superior technology has resulted in some notable program failures high procurement costs for the latest generation of equipment with associated production cuts and the high support requirements that are causing the relative share of combat forces to shrink Lake's analysis of recent initiatives by the armed services suggests that this pattern is likely to continue with the US military remaining prone to overstretch whenever its operational tempo increases above the peacetime baseline **Terrorism** ,1979 **Terrorism** ,1979 **Terrorism: Commentary on Security Documents**

**Index V** Douglas Lovelace, Jr.,2015-11-05 Index V contains the cumulative index to the Terrorism Commentary on Security Documents series from volume 121 to volume 140 and adds to earlier index volumes to ensure comprehensive searchability within the series Five different index formats are included in this one comprehensive index volume featuring indices by subject title name and year    **Military Health Care** Jomana Amara,Ann M. Hendricks,2013-09-02 This edited volume surveys critical aspects of modern military health care in the US and various other Western countries with troops in Iraq and Afghanistan In the United States the military medical system including care for veterans is large and diverse and involves two institutions the US Department of Defense DoD and the US Department of Veteran s Affairs VA Studying the system gives practitioners and policy makers an understanding of the larger picture of the military medical structure facilitating thought about some of the difficulties and opportunities for coordinating treatments and preparing for the future This book covers health care issues prior to deployment such as screening for mental health evaluating long term consequences of exposure to military service and provision of insurance care during a conflict primarily battlefield clinics battlefield trauma care and evacuation procedures and post combat care including serious war injuries psychiatric and long term care Bringing together research from a wide range of contributors the volume provides readers with an extensive up to date source of information on military medicine This book will be of great interest to students of public health military sociology the Iraq war US public policy and war and conflict studies in general    **Naval War College Review** ,2013    American Defense Annual, 1991-1992 Joseph J. Congress,1995-01-04    **China** World Bank,1993 The Republic of Korea s industrial policy has directed that nation s economy through nearly three decades of spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy s structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts    **The New York Times Index** ,1981    United States Army Drawdown and Restructuring Jacob E.

Black,Danny F. Gardner,2012-11 This book examines the strategic risk posed by a smaller and restructured Army the health of the Army given the impending downsizing the draw down and restructuring of the U S Army including the role of the National Guard and Reserves On 26 January 2012 senior DOD leadership unveiled a new defence strategy based on a review of potential future security challenges current defence strategy and budgetary constraints This new strategy envisions a smaller leaner Army that is agile flexible rapidly deployable and technologically advanced This strategy will rebalance the Army s global posture and presence emphasising where potential problems are likely to arise such as the Asia Pacific region and the Middle East The proposals to draw down and restructure the Army have a number of strategic implications including the capability to conduct stability and counterinsurgency operations the ability to fight two simultaneous wars shifting strategic emphasis to the Asia Pacific region and how the Army will maintain presence in the Middle East
