Adaptive Ethics for Digital Transformation Mark Schwartz, 2023-07-25 Digital transformation doesn t just raise ethical issues it in itself is an ethical shift Business leaders today are struggling to manage conflicting imperatives those of the emerging digital world and those of the bureaucratic world of the past The act of digital transformation requires a deep change in the moral outlook and ethical assumptions of a business But how do we get there Enterprise strategist and author Mark Schwartz shows how we need to learn to think differently about relationships with customers and employees That the ethics of digital transformation is a matter of cultivating and applying virtues rather than applying rules Ethics is not just a matter of refraining from doing bad things It s a matter of building the world we want and it s the job of company executives Featuring a chapter on bullshit a handy chart of excuses for bad behavior and Schwartz s typically paradoxical blend of deep insight and pasta jokes this book guides business leaders as they struggle to adapt their bureaucratic framework of ethics to the emerging landscape of the digital world By the end of the book business leaders will rethink what it takes to be an ethical organization *The Writer's Handbook* 2007 Barry Turner, 2006 Completely revised and updated with newly commissioned articles the 20th anniversary edition of *The Writer s Handbook* is an indispensable companion for everyone in the writing profession Containing over 6 000 entries covering every area of writing with provocative articles and useful advice from leading representatives of the trade this practical straightforward guide provides full details on the core markets In addition to the key areas of UK and US book publishers agents magazines screenwriting theater and poetry writer s courses and circles festivals and grants and prizes the guide also offers invaluable expert advice on contracts copyright and taxation

The Identity of the Architect Laura Iloniemi, 2019-12-23 Today there are more tools for communication than ever before

yet very little in the way of reflection on how these are being used and even less on what exactly is being conveyed This issue of AD looks at how architecture is communicated from a cultural perspective Do the identities of practices or their business driven branding and promotional efforts resonate with the critical acclaim many architects seek Has slick image led media coverage sold the profession short How is it possible to convey the less visual and haptic qualities of architecture Can architects be more creative in their communication efforts making these joyous on their own terms as Le Corbusier did so memorably Is there really a need to succumb to the world of corporate marketing processes and managerial business jargon The issue explores notions of editing and curating work in an age of data deluge and discusses social media as a genuinely alternative space for communication rather than for just repurposing and regurgitating information relayed The Identity of the Architect encourages the promotion of practices as an integral extension of the very culture they hope to engender through their work Contributors Stephen Bayley Caroline Cole Adam Nathaniel Furman Gabor Gallo Jonathan Glancey Justine Harvey Owen Hopkins Crispin Kelly Jay Merrick Robin Monotti Juhani Pallasmaa Vicky Richardson Jenny Sabin and Austin Williams Featured architects Ian Ritchie BIG MVRDV IF_DO and Zaha Hadid Architects

The British National Bibliography Arthur James Wells,2006 My Trade Andrew Marr,2009-09-18 How do you decide what is a story and what isn't What does a newspaper editor actually do all day How do hacks get their scoops How do the TV stations choose their news bulletins How do you persuade people to say those awful embarrassing things Who earns what How do journalists manage to look in the mirror after the way they sometimes behave The purpose of this insider's account is to provide an answer to all these questions and more My Trade Andrew Marr's brilliant and brilliantly funny book is a guide to those of us who read newspapers or who listen to and watch news bulletins but want to know more Andrew Marr tells the story of modern journalism through his own experience This is an extremely readable and utterly unique modern social history of British journalism with all its odd glamour smashed hopes and future possibility *Harrys Welt oder Die Sehnsucht nach Sinn* Hans Durrer,2019-03-24 Harrys Welt oder Die Sehnsucht nach Sinn ist gleichzeitig Reiseerzählung Essay und Tagebuch Szenen aus der Wirklichkeit wechseln ab mit Erfundenem Gedankensplitter Zitate Beobachtungen von vor Jahren und aus der Gegenwart stehen neben und hintereinander in verschiedenen Sprachen ohne Kontext ganz so wie das eben im richtigen Leben auch der Fall ist in dem einem gleichzeitig alles Mögliche durch den Kopf geht Grosse Teile handeln von Harrys Erlebnissen in Brasilien Südostasien und China wo die Menschen entgegen seinen Erwartungen und Hoffnungen auch nicht besser zu leben verstehen als in der Schweiz Nichts geht auf alles ist im Fluss Bedeutungsvolles und Gescheites steht bequem neben Banalem und Komischem Im schlechtesten Fall so Harrys Erkenntnis dreht man durch im besten Fall lernt man das Leben leicht zu nehmen Do Good Lives Have to Cost the Earth? Andrew Simms,Joe Smith,2008 Climate change is currently presented by campaign groups and scientists as an impossibly daunting threat On the face of it it would seem we must make impossible sacrifices if we want to do our bit for the environment and lead more sustainable less damaging lives

This book shows that isn't the case at all. It brings together household names who share a conviction that on the contrary living well needn't cost the earth and will tell you why and how. Their collective vision covering areas from architecture and politics to food and happiness will completely reframe the way you think about climate change and what you're willing to do about it. Far from the usual doom and gloom many here argue that climate change presents a once in a century opportunity to address a whole basket of problems with energy and imagination. If we get things right instead of an environmental apocalypse we could end up in a win-win situation with both more satisfying lives and robust answers to these pressing seemingly unsurmountable problems. Contributions include Phillip Pullman, A.C. Grayling, Oliver James and John Bird on love, happiness and telling tales; Kevin McCloud, Nic Marks, Stephen Bayley and Wayne Hemmings on good design; Hugh Fearnley-Whittingstall, Colin Tudge and Rosie Boycott on good and sustainable food; David Cameron and Caroline Lucas on the politics of the good life; Tom Hodgkinson, David Boyle and David Goldblatt on having a good time; Anita Roddick, Adair Turner, Ann Pettifor and Larry Elliott on good business and work.

Cohen, 2002 There you are writing a letter or a speech or even just arguing with your friends when you think there must be a succinct way of putting this. The Sex Doll Anthony Ferguson, 2014-01-10 This scholarly study of the centuries-long history of fornicatory dolls examines the enduring obsession with creating an idealized silent female sexual object and the manifestations of this desire through the ages in mythology, literature, art, philosophy and science. This particular sexual impulse has been expressed in a great variety of forms such as statues, mannequins, sex dolls and gynoids/robots. In particular this study focuses on the evolution of the sex doll through its original incarnation as a sack cloth effigy through the marketing of inflatable dolls to the current elaborate cyber technology figures in an attempt to discover the hidden drives and desires which fuel this ongoing fantasy of creating a perfect powerless silent partner.
