**European Agricultural Policy** Franco Sotte, Gianluca Brunori, 2025-03-06 This book presents the European Common Agricultural Policy by tracing its crucial stages from its conception to the present days It reconstructs the negotiating processes that have taken place at the political and institutional level over the years At the same time the book brings together the results of analyses made by agricultural policy scholars to propose solutions and to evaluate the policies adopted and the results they produced The book takes on a twofold objective to understand how many of today s problems have roots whose branches extend back in time and to draw from the lessons of history useful insights for endowing the European Union with an ambitious agricultural and rural development policy suited to the challenges ahead **Evaluation of Agricultural Policy Reforms in the European Union The Common Agricultural Policy 2014-20** OECD, 2017-07-27 The Common Agricultural Policy CAP is the primary agricultural policy instrument of the European Union This report focuses on the new features and institutional context of the current CAP 2014 20 adopted by the European Parliament and the European Council in December 2013 **Family farming in Türkiye** Food and Agriculture Organization of the United Nations, 2025-02-10 This report underscores the critical importance of family farming in ensuring sustainable agriculture food security and rural development in Türkiye Family farming contributes significantly to biodiversity conservation cultural heritage preservation and the production of nutritious food However challenges such as climate change declining natural resources and insufficient market access threaten its sustainability Drawing on global initiatives like the International Year of Family Farming 2014 and the UN Decade of Family Farming 2019 2028 this report highlights Türkiye s efforts including the Türkiye Family Farming Plan and Action Plan 2014 2018 It emphasizes the need for a participatory and interdisciplinary approach to address key issues such as supporting small scale enterprises integrating technological innovations and fostering youth involvement The report advocates for robust policy frameworks that promote sustainable practices financial inclusion and social protection for family farmers It outlines strategic priorities including rural development risk management and climate resilience to guide the preparation of a comprehensive National Action Plan for Türkiye By placing family farming at the core of its agricultural policies Türkiye can contribute to transforming global food systems and achieving the ambitions of the 2030 Agenda for Sustainable Development **Indiana Agriculture Report** ,2014 **Outlook on Agriculture** ,2015 Sustainability Indicators in Practice Agnieszka Latawiec, Dorice Agol, 2015-12-30 The goal of sustainable development is to meet the socio economic and environmental objectives without comprising the needs of future generations Since the Rio Summit of 1992 the concept of sustainability has captured our imaginations and aspirations and efforts to develop its indicators have increased A range of sustainability indicators have been developed within various socio economic environmental and cultural contexts including biodiversity economy energy water land use and transport Sustainability indicators are widespread in international development arena They have become popularized among governments non governmental organizations private sector and

the wider public Based on multiple cases across the world this book explores opportunities and challenges associated with the practical application of sustainability indicators The book reflects diversity of professionals of inter disciplinary backgrounds covering contemporary issues within different socio economic and environmental contexts Each chapter presents practical examples of the merits and challenges of using sustainability indicators and draws conclusions and lessons learned The book targets a range of audience from students academics to development practitioners and policy makers The two editors of this book Dr Agnieszka Ewa Latawiec and Dr Dorice Agol are inter disciplinary scientists who both have experience in research at the environmental conservation and development nexus The Political Economy of the 2014-2020 Common Agricultural Policy Johan F.M. Swinnen, 2015-07-30 After five years of debates consultations and negotiations the European institutions reached an agreement in 2013 on the Common Agricultural Policy CAP for the 2014-2020 period The outcome has major implications for the EU's budget and farmers incomes but also for Europe's environment its contribution to global climate change and to food security in the EU and in the world It was decided to spend more than 400 billion during the rest of the decade on the CAP The official claims are that the new CAP will take better account of society's expectations and lead to far reaching changes by making subsidies fairer and greener and making the CAP more efficient It is also asserted that the CAP will play a key part in achieving the overall objective of promoting smart sustainable and inclusive growth However there is significant scepticism about these claims and disappointment with the outcome of the decision making the first in which the European Parliament was involved under the co decision procedure In contrast to earlier reforms where more substantive changes were made to the CAP the factors that induced the policy discussions in 2008-13 and those that influenced the decision making did not reinforce each other On the contrary they sometimes counteracted one another yielding an imperfect storm as it were resulting in more status quo and fewer changes This book discusses the outcome of the decision making and the factors that influenced the policy choices and decisions It brings together contributions from leading academics from various disciplines and policy makers and key participants in the process from the European Commission and the European Parliament **The Philippine Agricultural Scientist**, 2014
