**Airline e-Commerce** Michael Hanke, 2016-05-20 From the few tickets that were sold by Alaska Airlines and former British Midland in December 1995 via the industry's first airline booking engine websites global online travel has grown to generate today more than half a trillion dollars in annual revenue. This development has brought significant changes to the airline business travel markets and consumers. Today airlines worldwide not only use e-commerce for online marketing and selling but also as a platform to offer unique services and capabilities that have no counterpart in the physical world. This book is an in-depth introduction to airline e-commerce. It covers a broad scope of areas that are essential to an airline's ongoing digital transformation: Digital properties, features, E-marketing, E-sales, distribution, Web customer service, E-commerce organization, E-commerce strategy. Written by an airline e-commerce expert and illustrated with numerous examples of leading airlines in this area, Dr. Hanke provides for comprehensive behind the scenes details of how airline e-commerce works. This book is a crucial companion for students and practitioners alike because it allows the reader to acquire a thorough foundation of airline e-commerce. Furthermore, the book enables the reader to appreciate the ramifications of airline e-commerce in certain corporate areas and to take effective action for a successful e-commerce strategy.

*The Future of Inflight Entertainment in Europe, According to Passenger Expectations: Why Airlines Should Embrace Consumer Technology* Jasmin Schawalder, 2014-04-15 Consumerization: passengers toting their tablets, laptops, smartphones and e-readers on planes has forced airlines to re-think: Should they continue to invest heavily into Inflight Entertainment (IFE) systems or just concentrate on offering Wi-Fi and power in the cabin? The goal of this research was to define the IFE offer of the future. Four barriers that split the world into the three regions Europe, Asia and USA in terms of IFE development were identified: the cultural, the commercial, the technological and the legal barrier. This book focuses on Europe, which lags mostly behind with IFE out of these three regions. For example, as opposed to the US, no major European airline offers inflight Wi-Fi widely on its network and in contrast to leading Middle Eastern airlines, none offers inflight live TV or the usage of mobile phones without restriction like on the ground. The target was to define IFE from a consumer perspective. To capture the latter, the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach, which categorizes alternatives of a product or service in this case IFE in must be attractive and indifferent elements. A representative online survey revealed: movies and power to be must be; TV and Wi-Fi to be attractive; and the rest: e-books, music, games and duty-free onboard to be indifferent elements of IFE. The majority of people indicated that they would pay for movies and Wi-Fi but not for power supply, TV or other content. Differently said: content-wise, passengers only insisted in the supply of movies for the rest, they expected the airline to provide Internet and power so they themselves could get the content. Further sub-groups were analysed: people within the sample with mutual characteristics like gender, travel frequency or ownership of smart devices. So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others?
