

# Virginia and the New Nation Study Guide

After the colonists won their independence during the Revolutionary War, the new American nation had to be established. Virginia had an important role in this process. The actions and ideas of some Virginians helped form the basis for the new constitutional government of the United States of America.

## Important Virginians:

Two Virginians who were important during the establishment of the United States include George Washington and James Madison.

### George Washington, the "Father of Our Country"

- was elected the first President of the United States of America
- provided the strong leadership needed to help the young country
- provided a model of leadership for future presidents

### James Madison, the "Father of the Constitution"

- believed in the importance of having a United States constitution
- kept detailed notes during the Constitutional Convention
- was skilled at compromise and helped delegates (representatives) reach agreement during the difficult process of writing the Constitution of the United States of America

## Important Documents:

The United States ~~Constitution~~ was an important document. It outlined how the government of the United States would work. It established laws for the American government and people.

Two other important documents, both written by Virginians, focused on protecting people's rights. Key ideas from these documents are included in the Constitution in the "Bill of Rights."

Document	Author	It Stated....
the Virginia Declaration of Rights	George Mason	All Virginians have many rights, including freedom of religion and freedom of the press.
the Virginia Statute for Religious Freedom	Thomas Jefferson	All people should be free to worship as they please.

freedom of religion = being free to go to any church you want

freedom of the press = being free to print/publish anything you want
