

APA TERM PAPER FORMAT

Abstract

- Use 12-point type in Times New Roman (or a similar plain font)
- Double-space the entire paper (including title page, block quotations and references page)
- Indent each paragraph

Running Head

A "running head" appears at the top left of every page—including the title page and references page. Place it in the header area (within the upper margin space). The running head is a shortened version of your paper's title (maximum 50 characters) typed in capital letters.

It is labeled with the phrase "Running head," as shown below—on the title page only.

Page Numbering

Page numbers are placed in the header space at the right, opposite the running head (on the same line). The title page is page 1; all the following pages are numbered, including the references page.

Title	Page
-------	------

- In the header space, at the left-hand margin, type "Running head" followed by a full colon. Then type the running head itself in capital letters.
- Place the number 1 (your page number) at the opposite end of the same line.
- In the upper half of the page, centre the full title of your paper, capitalizing only first letters as necessary.
- Leave one blank space below the title, and type your name. Leave one space below that, and add the name of the college.
- Everything on the title page must be in 12-point type, with nothing underlined or in bold.
