Community Preparedness and Response to Terrorism: The terrorist threat and community response James A. Johnson,Mark A. Cwiek,2005 What can we do to protect ourselves from a terrorist attack and how can communities respond most effectively when the unthinkable happens The next large scale terrorist attack on the United States could be carried out using any number of agents and delivery methods including anthrax smallpox the water system the agriculture industry threats to bridges tunnels trains airlines and other transportation systems suicide bombings in crowded cities convention centers and shopping malls the possibilities are many but not endless Local preparation is critical Until now scant attention has been paid to the role of communities in preparing for and responding to terrorism This invaluable set covers chemical biological radiological nuclear and explosive scenarios Throughout the focus is on community preparedness and response Volume I The Terrorist Threat and Community Response focuses on local state regional and federal coordination of efforts and interaction *Army and Navy Journal* ,1948 **China** World Bank,1993 The Republic of Korea s industrial policy has directed that nation s economy through nearly three decades of spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy s structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts *The Engineer* ,1874 **Reverse Acronyms, Initialisms & Abbreviations Dictionary** Mary Rose Bonk,2003 **Strategic Digest** ,1998 Army-Navy-Air Force Register and Defense Times ,1932
