THE MODERN ADMINISTRATION OF THE EARTH Gopal Rayappa Kolekar, 2021-09-16 I was inspired to write this book by observing as to what is presently happening on the earth such as Global hunger Child labor Global warming Corruption Illiteracy and Poverty of the people in some countries and Terrorism and Guerilla warfare I am paying very serious attention to this matter It just amounts to unscientific administrative policy or a chaotic policy followed by a few countries and purposely some countries are indulging in terrorism tactics Some governments pursue this policy resolutely with a view to terrorize the inhabitants of the earth It can be seen that in a few countries the political leaders are following the present independent administrative policy of each country in a persistent manner I have been a keen observer of this and have found that they are purposefully doing this but I am a scientist in HRD study and one HRD scientist is equal to God in respect of knowledge and power also I cannot tolerate any kind of inhuman illegal activities on the earth By seeing this I am changing the world's Administrative Policy as per the directions mentioned in this book I appeal to the earth's inhabitants to usher in this new Administrative Policy in the interest of the world with a view to have everlasting peace and the resulting satisfaction as to their lifespan on this planet

Sociology David M. Newman, 2016-08-16 Adapted from David M Newman's best selling Sociology Exploring the Architecture of Everyday Life this briefer streamlined version continues to show students how to see the unfamiliar in the familiar inspiring them to think critically about their own lives and social contexts As in the full text the author's approachable writing style and lively personal anecdotes make the Brief Edition a text that reads like a real book It uses the metaphors of architecture and construction to help students understand that society is not something that exists out there independently of themselves it is a human creation that is planned formed maintained or altered by individuals Rather than surveying every subfield in sociology the Brief Edition focuses on the individual and society the construction of self and society and social inequality in the context of social structures
