2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

Teaching and Time Poverty Greg Thompson, Anna Hogan, 2024-12-04 As teacher shortages reach a global crisis point this book explores how time poverty has become a critical factor in the working lives of teachers and school leaders Arguing that we need to move away from framing the problem of teachers' work as simply workload this book suggests that understanding time poverty is the first step in moving toward more manageable working lives The book brings together international perspectives on teacher time poverty drawing on theoretical and empirical work

to underscore the growing complexity of teachers work and how this impacts job satisfaction stress and feeling that there is never enough time to accomplish all that needs to be done Many policy solutions misdiagnose the problems of teachers work simply suggesting it is an issue of workload The chapters investigate issues of work intensification finding that teachers are not only working longer but also working harder as they manage more complex classrooms and policy mandates This book is essential reading for those interested in understanding how current education policy both produces time poverty and could better identify and respond to the complexities of teachers work *Charting the Sustainable Future of ASEAN in Science and Technology* Nurul Zawani Alias,Rizana Yusof,2020-04-23 This book showcases selected conference papers addressing the sustainable future of ASEAN from the perspectives of science and technology disciplines In addressing the 17 Sustainable Developments Goals SDGs envisioned by the United Nations in the domains of environment health and well being posing potential means of reducing inequalities globally the authors target specific issues and challenges confronting the fast growing region of ASEAN and present suggestions for co operation and commitment from governments non governmental organisations NGOs and society at large in line with the ASEAN Vision 2020 Papers are selected from the 3rd International Conference on the Future of ASEAN ICoFA 2019 organised by Universiti Teknologi MARA in Malaysia whose conference theme Charting the Sustainable Future of ASEAN enables intellectual discourse on sustainability issues from science and technology as well as business and the social sciences The selection of papers is published in two books comprised of scholarly and practical insights on sustainability in ASEAN This book from science and technology scholars is of interest to researchers and policymakers interested in sustainability developments in the ASEAN region *Conservative Government Penal Policy 2015-2021* Christopher David Skinns,2022-07-28 This book interrogates Conservative government penal policy for adult and young adult offenders in England and Wales between 2015 and 2021 Government penal policy is shown to have been often ineffective and costly and to have revived efforts to push the system towards a disastrous combination of austerity outsourcing and punishment that has exacerbated the penal crisis This investigation has meant touching on topical debates dealing with the impact of resource scarcity on offenders experiences of the penal system the impact of an increasing emphasis on punishment on offenders sense of justice and fairness the balance struck between infection control and offender welfare during the government handling of the SARS CoV 2 pandemic and why successive Conservative governments have intransigently pursued a penal policy that has proved crisis exacerbating The overall conclusion reached is that penal policy is too important to be left to governments alone and needs to be recalibrated by a one off inquiry complemented by an on going advisory body capable of requiring governments to explain or change The book is distinctive in that it provides a critical review of penal policy change whilst combining this with insights derived from the sociological analysis of penal trends **Federal Register** ,2014-10 [Education at a Glance 2018](#) OECD,Oecd,2018-09-19 Foreword Editorial Education s promise to all Introduction The Indicators and their Framework Reader s guide Executive summary Equity in the Education

New Faces in the Crowd Economic Council of Canada,1991 Examines trends particularly since 1972 and makes projections to the year 2015 and beyond Economic Modeling in the Post Great Recession Era John E. Silvia,Azhar Iqbal,Sarah Watt House,2016-12-14 Reality based modeling for today s unique economic recovery Economic Modeling in the Post Great Recession Era presents a more realistic approach to modeling using direct statistical applications to address the characteristics and trends central to current market behaviors This book s unique focus on the reality of today s markets makes it an invaluable resource for students and practitioners seeking a comprehensive guide to more accurate forecasting While most books treat the economy as if it were in a vacuum building models around idealized or perception biased behaviors this book deals with the economy as it currently stands in a state of recovery limited by financial constraints imperfect information and lags and disparities in price movements The authors identify how these characteristics impact various markets behaviors and quantify those behaviors using SAS as the primary statistical tool Today s economy bears a

number of unique attributes that usual modeling methods fail to consider This book describes how to approach modeling based on real world observable data in order to make better informed decisions in today s markets Discover the three economic characteristics with the greatest impact on various markets Create economic models that mirror the current post recession reality Adopt statistical methods that identify and adapt to structural breaks and lags Factor real world imperfections into modeling for more accurate forecasting The past few years have shown a clear demarcation between policymakers forecasts and actual outcomes As the dust settles on the Great Recession after effects linger and impact our current recovery in ways that diverge from past experience and theoretical expectations Economic Modeling in the Post Great Recession Era provides comprehensive guidance grounded in reality for today s economic decision makers Thomas Cook Overseas Timetable ,1992-11 Thomas Cook European Timetable ,1997-07 *Financial Review and American Building Association News* ,1899 *OzonAction* ,1991 **Documents, Working Papers - Council of Europe, Parliamentary Assembly** Council of Europe.
