This urgently needed guidebook helps teachers understand why students struggle. Teachers will discover how the common learning characteristics of students with learning difficulties create barriers to understanding mathematics. Review the Big Ideas: Are teachers focusing on the right things? A helpful primer on major NCTM-endorsed mathematical concepts and processes helps them be sure. Directly address students' learning barriers. With the lesson plans, practical strategies, photocopiable information, gathering forms, and online strategies in action, teachers will have concrete ways to help students grasp mathematical concepts, improve their proficiency, and generalize knowledge in multiple contexts. Check their own strengths and needs. Educators will reflect critically on their current practices with a thought-provoking questionnaire. With this timely book filled with invaluable ideas and strategies adaptable for grades K-12, educators will know just what to teach and how to teach it to students with learning difficulties.

*Discovering Mathematics* Jiří Gregor, Jaroslav Tišer, 2010-12-21. The book contains chapters of structured approach to problem solving in mathematical analysis on an intermediate level. It follows the ideas of G. Polya and others, distinguishing between exercises and problem solving in mathematics. Interrelated concepts are connected by hyperlinks pointing toward easier or more difficult problems, so as to show paths of mathematical reasoning. Basic definitions and theorems can also be found by hyperlinks from relevant places. Problems are open to alternative formulations, generalizations, simplifications, and verification of hypotheses by the reader; this is shown to be helpful in solving problems. The book presents how advanced mathematical software can aid all stages of mathematical reasoning while the mathematical content remains in foreground. The authors show how software can contribute to deeper understanding and to enlarging the scope of teaching for students and teachers of mathematics.
