

## CONVERTIBLE

Except for the folding top, the convertible model is equipped in the same manner as other Chevrolet Passenger Cars. For top and rear window operation consult the booklet "How to Operate the Folding Top" supplied with your car. For continued trouble-free operation of the folding top, clean and lubricate the 10 cylinder seats with Super No. 11 Grease and every 1000 miles.

## CLEANING HINTS

### EXTERIOR APPEARANCE

#### Washing Your Car

The best way to preserve the original beauty of the finish of your Chevrolet is to keep it clean. Calcium Chloride and other salts, road tar, excretion from insects, tree sap, chemicals from factory chimneys and other foreign matter may permanently damage both paint and bright metal parts. Regular frequent washings and a thorough cleaning after exposure to any of the above is recommended. Wash the car in either warm or cold (never hot) water; never in the direct rays of the sun, and always wait until the sheet metal surfaces have cooled before beginning. Never wipe off dust and dirt when surfaces are dry since this may scratch the finish.

## MAINTENANCE AND LUBRICATION

#### Polishing Your Car

Your Chevrolet is finished with Magna-Mime Acrylic Lacquer. A thorough washing is generally all that is required to maintain a "new car" appearance. However, if the car is to be polished make certain that the label of the cleaner or polish used states that the product is suitable for use on acrylic lacquer finishes. Any hard wax and varnish used should indicate on the label that it is suitable for Acrylic Lacquer. G. M. Tax and Road Oil Remover has been especially compounded for this purpose.

#### Protection of Exterior Bright Metal Parts

All bright metal parts of the car should be regularly cleaned and protected against the same substances harmful to the painted surfaces. Normally, washing with water is all that is required. However, G. M. Chrome Polish may be used on CHROME or STAINLESS STEEL trim if necessary. Use special care with ALUMINUM trim. Never use auto or chrome polish, steel or any abrasive soap to clean aluminum. Wash only with lukewarm water, and if necessary, a mild soap. Rinse well and dry thoroughly.
