We can witness such transition by examining engineering job descriptions and postgraduate curricula. The undertaking of organising a conference to reflect the above was not easy and definitely not something that was brought to life without a lot of work and commitment. The 1st Conference of Engineering Against Fracture, from its conceptual day until completion, was designed in a way of underlying the need of bringing all the key players on a common ground that once properly cultivated can flourish. To achieve that, the conference themes were numerous and despite their in-principle notional differences, it was apparent that the attendees
