Vincent Motorcycles Philippe Guyony,2021-10-28 Very few motorcycles have carved a mark in history like the Vincent V twin from its arrival in 1946 and up to the present day On the road in club racing in drag races or competing for land speed records it dominated the motorcycle world leading to the famous catchphrase coined by the factory The World's Fastest Standard Motorcycle It was a FACT NOT a slogan Images such as that of Rollie Free in swimming trunks laying flat on his works modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948 have now passed into posterity In fact the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes No other motorcycle in the world can claim this kind of achievement Following the premature ending of Vincent production Fritz Egli's 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years Egli's machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent Understand how the flame of passion still burns brightly today *Autocar*,2004 *Head Injury Simulation in Road Traffic Accidents* Fábio A. O. Fernandes,Ricardo J. Alves de Sousa,Mariusz Ptak,2018-04-27 In this work the development of a new geometrically detailed finite element head model is presented Special attention is given to sulci and gyri modelling making this model more geometrically accurate than others currently available The model was validated against experimental data from impact tests on cadavers specifically intracranial pressure and brain motion Its potential is shown in an accident reconstruction case with injury evaluation by effectively combining multibody kinematics and finite element methodology
