**Advanced Techniques in Liposuction and Fat Transfer** Nikolay Serdev, 2011-09-12 Liposuction is the first cosmetic procedure to change beautification surgery from open extensive excision surgery into a more atraumatic closed one. It gave rise to the modern understanding of minimally scarring and minimally invasive surgery and changed the understanding and preferences of both patients and doctors. It also became the most common procedure in cosmetic surgery world wide practiced by an increased number of physicians from various specialties. The techniques of fat grafting closely bound with liposuction have found widespread application and fat stem cells seem to be changing the future of many areas in medicine. Turning the pages the reader will find a lot of information about advances, tips and tricks as well as important milestones in the development of the different methods available such as classic power ultrasound laser and radio frequency assisted liposuction etc. Most useful anesthesia techniques are described and discussed and guidelines have been established for medical indications. Special attention is paid to good patient selection, complications and risks. *Australian National*

*Bibliography: 1992 National Library of Australia, 1988* **The Effect of UV Light and Weather on Plastics and Elastomers** Laurence W. McKeen, 2013-06-21 This reference guide brings together a wide range of essential data on the effects of weather and UV light exposure on plastics and elastomers enabling engineers to make optimal material choices and design decisions. In both normal and extreme environments outdoor use has a variety of effects on different plastics and elastomers including discoloring and brittleness. The data is supported by explanations of real world engineering applications. The data tables in this book are supported by examples of real world applications enabling engineers and scientists to select the right materials for a given situation across a wide range of sectors including construction, packaging, signage, consumer e.g. toys, outdoor furniture, automotive and aerospace defense etc. The third edition includes new text chapters that provide the fundamental knowledge required to make best use of the data. Author Larry McKeen has also added detailed descriptions of the effect of weathering on the most common polymer classes such as polyolefins, polyamides, polyesters, elastomers, fluoropolymers, biodegradable plastics etc making this book an invaluable design guide as well as an industry standard data source. Essential data and practical guidance for engineers and scientists working with plastics in outdoor applications and products. New introductory chapters on weathering processes and the effect of light and heat on plastics. 25% new data.
