American Autopsy Michael M. Baden, 2023-01-17 A revealing history of covering up the true causes of deaths of BIPOC in custody from the forensic pathologist whose work changed the course of the George Floyd Eric Garner and Michael Brown cases Dr Michael Baden has been involved in some of the most high profile civil rights and police brutality cases in US history from the government s 1976 re investigation of the assassination of Martin Luther King Jr to the 2014 death of Michael Brown whose case sparked the initial Ferguson protests that grew into the Black Lives Matter movement The playbook hasn t changed since 1979 when Dr Baden was demoted from his job as New York City s Chief Medical Examiner after ruling that the death of a Black man in police custody was a homicide So in 2020 when the Floyd family wary of the same system that oversaw George Floyd s death needed a second opinion Dr Baden is who they called In these pages Dr Baden chronicles his six decades on the front lines of the fight for accountability within the legal system including the long history of medical examiners of using a controversial syndrome called excited delirium a term that shows up in the pathology report for George Floyd to explain away the deaths of BIPOC restrained by police In the process he brings to life the political issues that go on in the wake of often unrecorded fatal police encounters and the standoff between law enforcement and those they are sworn to protect Full of behind the scenes drama and surprising revelations *American Autopsy* is an invigorating and enraging read that is both timely and crucial for this turning point in our nation s history
