Ancient Middle Eastern Clothing:

Prehistoric, Ancient Near Eastern & Aegean Textiles and Dress Mary Harlow, Cécile Michel, Marie-Louise Nosch, 2014-09-30 Textile and dress production from raw materials to finished items has had a significant impact on society from its earliest history. The essays in this volume offer a fresh insight into the emerging interdisciplinary research field of textile and dress studies by discussing archaeological iconographical and textual evidence within a broad geographical and chronological spectrum. The thirteen chapters explore issues such as the analysis of textile tools especially spindle whorls and textile imprints for reconstructing textile production in contexts as different as Neolithic Transylvania the Early Bronze Age North Aegean and the Early Iron Age Eastern Mediterranean the importance of cuneiform clay tablets as a documentary source for both drawing a detailed picture of the administration of a textile industry and for addressing gender issues such as the construction of masculinity in the Sumerian kingdoms of the 3rd millennium BC and discussions of royal and priestly costumes and clothing ornaments in the Mesopotamian kingdom of Mari and in Mycenaean culture. Textile terms testify to intensive exchanges between Semitic and Indo European languages especially within the terminology of trade goods. The production and consumption of textiles and garments are demonstrated in 2nd millennium Hittite Anatolia from 1st millennium BC Assyria a cross disciplinary approach combines texts realia and iconography to produce a systematic study of golden dress decorations and finally the important discussion of fibres flax and wool in written and archaeological sources is evidence for delineating the economy of linen and the strong symbolic value of fibre types in 1st millennium Babylonia and the Southern Levant. The volume is part of a pair together with *Greek and Roman Textiles and Dress An Interdisciplinary Anthology* edited by Mary Harlow and Marie Louise Nosch

These aspects are addressed in three separate sections enhanced by over a hundred pictures and illustrations. Part I places nudity and clothing in its ancient Israelite context with discussions of methodology, the ancient Near Eastern evidence including material culture and iconography and an assessment of central aspects of the biblical material such as fabrication and uses of textiles, lexicography, theological and anthropological implications. Part II looks at key themes such as mourning, death, encounters with the divine and issues of power and status. Finally Part III presents several close studies of key passages from narrative, prophetic and wisdom texts where clothing and nudity play an important role.

Middle East Carel J. du Ry van Beest Holle,1970 *Arab Dress* Yedida Kalfon Stillman,2000 Hilary Putnam has been convinced for some time that the present situation in philosophy calls for revitalization and renewal in this latest book he shows us what shape he would like that renewal to take Words and Life offers a sweeping account of the sources of several of the central problems of philosophy past and present and of why some of those problems are not going to go away As the titles of the first four parts in the volume The Return of Aristotle The Legacy of Logical Positivism The Inheritance of Pragmatism and Essays after Wittgenstein suggest many of the essays are concerned with tracing the recent and the not so recent history of these problems The goal is to bring out what is coercive and arbitrary about some of our present ways of posing the problems and what is of continuing interest in certain past approaches to them Various supposedly timeless philosophical problems appear on closer inspection to change with altered historical circumstances while there turns out to be much of permanent value in Aristotle s Peirce s Dewey s and Reichenbach s work on some of the problems that continue to exercise us A unifying theme of the volume as a whole is that reductionism scientism and old style disenchanted naturalism tend to be obstacles to philosophical progress The titles of the final three parts of the volume Truth and Reference Mind and Language and The Diversity of the Sciences indicate that the sweep of the problems considered here comprehends all the fundamental areas of contemporary analytic philosophy Rich in detail the book is also grand in scope allowing us to trace the ongoing intellectual evolution of one of the most significant philosophers of the century **The Seven Great Monarchies of the Ancient Eastern World** George Rawlinson,1885 A smaller Ancient history of the East Philip Smith,1871
