Reasons with Contemporary Arguments Eric Lupfer,2004

Elizabeth Bishop's Prosaic Vidyan Ravinthiran,2015-07-01

Elizabeth Bishop is now recognized as one of the greatest poets of the twentieth century a uniquely cosmopolitan writer with connections to the US Canada Brazil and also the UK given her neglected borrowings from many English authors and her strong influence on modern British verse Yet the dominant biographical psychoanalytical approach leaves her style relatively untouched and it is vital that an increasing focus on archival material does not replace our attention to the writing itself Bishop s verse is often compared with prose sometimes insultingly writing fiction she worried she was really writing poems But what truly is the difference between poetry and prose structurally conceptually historically speaking Is prose simply formalized speech or does it have rhythms of its own Ravinthiran seeks an answer to this question through close analysis of Bishop s prose like verse her literary prose her prose poems and her letter prose This title is a provocation It demands that we reconsider the pejorative quality of the word prosaic playing on mosaic Ravinthiran uses Bishop s thinking about prose to approach for the first time her work in multiple genres as a stylistic whole Elizabeth Bishop s Prosaic is concerned not only with her inimitable style but also larger questions to do with the Anglo American shift from closed to open forms in the twentieth century This study identifies not just borrowings from but rich intertextual relationships with writers as diverse as among others Gerard Manley Hopkins W H Auden Virginia Woolf Flannery O Connor and Dorothy Richardson Though Bishop criticized Woolf she in particular is treated as a central and thus far neglected precursor crucial to our understanding of Bishop as a feminist poet Finally the sustained discussion of how the history of prose frames effects of rhythm syntax and acoustic texture in both Bishop s prose proper and her prosaic verse extends a body of research which seeks now to treat literature as a form of cognition Technique and thought are finely wedded in Bishop s work her literary forms evince a historical intelligence attuned to questions of power nationality tradition both literary and otherwise race and gender

Writing with a Purpose Joseph F. Trimmer,1992 Each chapter concludes with essays by student and professional writers that expand upon issues of the chapter and serve as springboards for discussion and writing assignments A sequence of ten writing assignments follows each set of readings moving from personal narrative through analysis to argument taken from cover
