Theatre and Learning Art Babayants, Heather Fitzimmons Frey, 2015-09-04 As early as Plato, theorists acknowledged the power of theatre as a way of teaching young minds. Similarly, starting with Plato, philosophers occasionally adopted an anti-theatrical stance, worried by the dangers theatre posed to society. The relationships between learning and theatre have never been seen as straightforward, obvious, or without contradictions. This volume investigates the complexity of the intersection of theatre and learning, addressing both the theoretical and practical aspects of it. In three sections, *Reflecting, Risking, and Reimagining*, theatre researchers, education scholars, theatre practitioners consider the tensions, frictions, and failures that make learning through theatre in theatre and about theatre interesting, engaging, and challenging. Loosely based on the proceedings from the 20th Festival of Original Theatre F O O T which took place in February 2012 at the University of Toronto, this book contains academic articles and

interviews as well as position reflection and provocation papers from both established researchers in the field of Applied Theatre such as Professor Helen Nicholson and Professor Kathleen Gallagher as well as experienced and emergent scholars in Education Theatre Dance and Performance Studies It also introduces the unorthodox work of the pre eminent Swedish director and inventor of Babydrama Suzanne Osten to the academic audience Theatre and Learning will be interesting to a wide range of audiences such as theatre artists and students theatre researchers and educators and will be particularly useful for those teaching Theatre Theory and Practice including Applied Theatre in higher education **Teacher's Guide to Celebrate Reading** ,1993 **Tour Guides at Memorial Sites and Holocaust Museums** Anja Ballis,2022-05-23 In this volume contributors reflect on how to teach and mediate difficult history from the perspectives of guides Too often their activities are undervalued and taken for granted Guides represent an important often forgotten group of educators This volume takes a global view on guiding at memorial sites and museums in Europe North America and South Africa The contributors to this volume show from different research traditions that it is worth understanding more about the guides personal interests their motivations and their concept of guiding Authors apply methodologies from the social sciences to describe the guides point of view Complementing the various approaches in tour guide research a detailed linguistic analysis sheds light on a survivor s testimony echoed in the guides language The studies gathered in this volume open up an orientation for further approaches to tour guiding based on and centered around authentic materials from guides

**Holocaust Memory and Youth Performance** Erika Hughes, 2024-01-25 Through an examination of children's and youth plays and performances about the Holocaust from Germany, Israel, and the United States, this book offers an entirely new way of looking at the vital role of youth performance in coping with the legacy of historical tragedy. As the first book-length critical examination of this subject, *Holocaust Memory and Youth Performance* considers plays that are produced by major theatre companies alongside performances written by young authors and pieces taken from the diaries and memoirs of those who experienced the Holocaust as children or adolescents. While youth-focused plays about the Holocaust have been in the repertoires of top professional companies throughout the world for decades and continue to be performed in theatres, schools, and community centers, they are often neglected in concentrated and comparative studies of Holocaust theatre. Erika Hughes fills this gap by examining plays including *The Diary of Anne Frank* and *Ab heure hei t Du Sara*, musicals, performances, scripts, a rock concert, a performance on Instagram, and pedagogically focused works of applied theatre. A diverse collection of performances for young audiences that tell the stories of young people who experienced the Holocaust. Adopting Hannah Arendt's notion of natality as a powerful framework, this study examines the ways in which youth theatre performances make a vital contribution to intergenerational witnessing and the collective memory of the Holocaust.
