2015 Michigan Sentencing Guidelines Manual:

Paying for the Past Richard S. Frase, Julian V. Roberts, 2019 All modern sentencing systems in the US and beyond consider the offender's prior record to be an important determinant of the form and severity of punishment for subsequent offences. Repeat offenders receive harsher punishments than first offenders and offenders with longer criminal records are punished more severely than those with shorter records. Yet the vast literature on sentencing policy law and practice has generally overlooked the issue of prior convictions even though this is the most important sentencing factor after the seriousness of the crime. In *Paying for the Past* Richard S. Frase and Julian V. Roberts provide a critical and systematic examination of current prior record enhancements under sentencing guidelines across the US. Drawing on empirical data and analyses of guidelines from a number of jurisdictions they illustrate different approaches to prior record enhancements and the differing outcomes of those approaches. Roberts and Frase demonstrate that most prior record enhancements generate a range of adverse outcomes at sentencing. Further the pervasive justifications for prior record enhancement such as the repeat offender's assumed higher risk of reoffending or greater culpability are uncertain and have rarely been subjected to critical appraisal. The punitive sentencing premiums for repeat offenders prescribed by US guidelines cannot be justified on grounds of prevention or retribution. Shining a light on a neglected but critically important topic, *Paying for the Past* examines the costs of prior record enhancements for repeat offenders and offers model guidelines to help reduce racial disparities and reallocate criminal justice resources for jurisdictions who use sentence enhancements. **Michigan Law Review**, 2017-10

Foundations of Criminal Justice Stephen S. Owen, 2019-07-15 What is law? What is deviance? What is justice? How is justice achieved through law, punishment and criminal justice agencies? Now in its third edition, *Foundations of Criminal Justice* uses a unique approach that provides students with the framework and the intellectual tools that they will need in order to critically analyze and evaluate the nature, sources, scope, purposes and practical limitations of the criminal justice system. This is the only introductory survey text that moves beyond a description of the criminal justice system, helping students understand the role of criminal justice in their lives as criminal justice practitioners and as active citizens.

Michigan Sentencing Guidelines Manual, 2019 **Prisoners of Politics** Rachel Elise Barkow, 2019-03-04 A CounterPunch Best Book of the Year. A Lone Star Policy Institute Recommended Book. If you care as I do about disrupting the perverse politics of criminal justice, there is no better place to start than *Prisoners of Politics*. James Forman Jr, author of *Locking Up Our Own*. The United States has the highest rate of incarceration in the world. The social consequences of this fact—recycling people who commit crimes through an overwhelmed system and creating a growing class of permanently criminalized citizens—are devastating. A leading criminal justice reformer who has successfully rewritten sentencing guidelines, Rachel Barkow argues that we would be safer and have fewer people in prison if we relied more on expertise and

evidence and worried less about being tough on crime A groundbreaking work that is transforming our national conversation on crime and punishment Prisoners of Politics shows how problematic it is to base criminal justice policy on the whims of the electorate and argues for an overdue shift that could upend our prison problem and make America a more equitable society A critically important exploration of the political dynamics that have made us one of the most punitive societies in human history A must read by one of our most thoughtful scholars of crime and punishment Bryan Stevenson author of Just Mercy Barkow s analysis suggests that it is not enough to slash police budgets if we want to ensure lasting reform We also need to find ways to insulate the process from political winds David Cole New York Review of Books A cogent and provocative argument about how to achieve true institutional reform and fix our broken system Emily Bazelon author of Charged

Deserved Criminal Sentences Andreas von Hirsch,2017-02-09 This book provides an accessible and systematic restatement of the desert model for criminal sentencing by one of its leading academic exponents The desert model emphasises the degree of seriousness of the offender s crime in deciding the severity of his punishment and has become increasingly influential in recent penal practice and scholarly debate It explains why sentences should be based principally on crime seriousness and addresses among other topics how a desert based penalty scheme can be constructed how to gauge punishments seriousness and penalties severity what weight should be given to an offender s previous convictions how non custodial sentences should be scaled and what leeway there might be for taking other factors into account such as an offender s need for treatment The volume will be of interest to all those working in penal theory and practice criminal sentencing and the criminal law more generally

Challenges in the Field of Economic and Financial Crime in Europe and the US Katalin Ligeti,Vanessa Franssen,2017-02-23 In the past few years criminal justice systems have faced important global challenges in the field of economic and financial crime The 2008 financial crisis revealed how strongly financial markets and economies are interconnected and illustrated that misconduct in the economic and financial sectors is often of a systemic nature with wide spread consequences for a large number of victims The prevention control and punishment of such crimes is thus confronted with a strong globalisation Moreover continuous technological evolutions and socio economic developments make the distinction between socially desirable and undesirable behaviour more problematic Besides economic and financial misconduct is notoriously difficult to detect and investigate In light of these challenges legislators and law enforcers have been searching for adequate responses to combat economic and financial crime by adapting existing policies norms and practices and by creating new enforcement mechanisms The purpose of this volume is to analyse those challenges in the field of economic and financial crime from different perspectives and to examine which particular solutions criminal justice systems across Europe give to those challenges The volume has four parts The first part focuses on a number of key questions with respect to substantive criminal law whereas the second part will address issues affecting the administration of justice and criminal procedure Part three then explores particular challenges concerning multi

agency cooperation and multi disciplinary investigations Finally part four will concentrate on issues regarding shared or integrated enforcement models Michigan Sentencing Guidelines Manual Michigan.
