Government Publications ,1978 Students at Risk of School Failure José Jesús Gázquez,José Carlos Núñez,2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure identifying student and context variables In spite of the fact that there is currently little doubt about how one learns and how to teach in some countries of the developed world there is still there is a high rate of school failure Although the term school failure is a very complex construct insofar as its causes consequences and development from the field of educational psychology the construct student engagement has recently gained special interest in an attempt to deal with the serious problem of school failure School engagement builds on the anatomy of the students involvement in school and describes their feelings behaviors and thoughts about their school experiences So engagement is an important component of students school experience with a close relationship to achievement and school failure Children who self set academic goals attend school regularly and on time behave well in class complete their homework and study at home are likely to interact adequately with the school social and physical environments and perform well in school In contrast children who miss school are more likely to display disruptive behaviors in class miss homework frequently exhibit violent behaviors on the playground fail subjects be

retained and if the behaviors persist quit school Moreover engagement should also be considered as an important school outcome eliciting more or less supportive reactions from educators For example children who display school engaged behaviors are likely to receive motivational and instructional support from their teachers The opposite may also be true But what makes student engage more or less The relevant literature indicates that personal variables e g sensory motor neurodevelopmental cognitive motivational emotional behavior problems learning difficulties addictions social and or cultural variables e g negative family conditions child abuse cultural deprivation ethnic conditions immigration or school variables e g coexistence at school bullying cyberbullying may concurrently hinder engagement preventing the student from acquiring the learnings in the same conditions as the rest of the classmates Downsizing David Ekerdt,2020-06-16 As life unfolds things tend to accumulate When older adults undergo health residential and marital changes they will face a reckoning with their lifelong store of possessions special ordinary and forgotten Such a predicament now confronts tens of millions of Americans as the Baby Boom cohort passes into retirement and beyond Despite what a thriving industry of clutter manuals tells us for most older adults downsizing is no simple task Drawing on in depth interviews with recent movers in over a hundred diverse U S households David Ekerdt analyzes the downsizing process and what it says about the meaning and management of possessions He details how households approach and accomplish downsizing exploring the decision making process and the effectiveness of different strategies From an expert gerontological perspective he considers the cognitive physical emotional and social tasks that the process entails and the role of factors such as gender and class on the divestment of things Ekerdt finds that despite the fatigue and emotional challenges people encounter afterward they report satisfaction in having completed a downsizing and feel empowerment on the other side of the task Offering an empathetic and practical look at one of life s major transitions Downsizing brings forward the voices of elders so that older adults their families and friends and practitioners working with older clients can understand and benefit from their experience Studies of White Whales (Delphinapterus Leucas) and Narwhals (Monodon Monoceros) in Greenland and Adjacent Waters ,1994 **Clinical**
