2015 Provintial Time Table

Wenbin Ji

2015 Provincial Time Table:

Regional Integration and Governance Reshuffling in the Making of China's City-Regions Xianchun Zhang,2023-08-07 This book for the first time thoroughly investigates the extent of economic and institutional integrations and the underlying governance reshuffling process of China's city regionalism. By using the Shenzhen Dongguan Huizhou sub region SDH in southern China as an empirical case this book provides convincing evidence that China's city regionalism is essentially a state orchestrated and institution based process. Perspectives from market industry infrastructure and multi level governance MLG have been provided to systematically examine China's city regionalism. This book has essentially made a definitive contribution to China's regional governance. Methodologically it shows how China's city regionalism can be examined through a problem solving and case by case paradigm through building a bridge between an empirical slogan and an inclusive theoretical term for institutional integration and through MLG and its integrative approaches in China. Exhilarating findings are presented using extensive tables graphs and maps along with the integration of quantitative and qualitative methods. Undergraduates graduates and researchers who are interested in China's city regionalism and regional governance would be the readership of the book and officers from different levels of government as well as policymakers will find the book inspiring.

Large Igneous Provinces and their Plumbing Systems R. K. Srivastava,R. E. Ernst,,K. L. Buchan,,M. De Kock,2022-03-15 Identification of large volume short duration mafic magmatic events of intraplate affinity in both continental and oceanic settings on the Earth and other planets provides invaluable clues for understanding several vital geological issues of current concern. Of particular importance is understanding the assembly and dispersal of supercontinents through Earth's history dramatic climate change events including mass extinctions and processes that have produced a wide range of large igneous province LIP related resources such as Ni Cu PGE Au U base metals and petroleum. This volume comprises 21 contributions on the latest developments and new information on LIPs and their plumbing systems and presents methodical studies on different components of LIP plumbing systems. These articles are especially helpful in understanding continental break up events regional domal uplift and a variety of metallogenic systems as well as the temporal and spatial distribution of LIPs their origin and their likely links to mantle plumes superplumes.

Remote Sensing Applications in Monitoring of Protected Areas Yeqiao Wang ,Zhong Lu,Yongwei Sheng,Yuyu Zhou,2020-12-02 Remote sensing has been successfully applied in monitoring of protected areas around the world. With intensified impacts of climate and environmental change protected areas become increasingly important to serve as indicators of and buffers against the impacts of the disturbances. Remote sensing plays an irreplaceable role in this frontline of challenges. The subjects and contents of the articles collected in this book reflect the state of the art applications of remote sensing for capturing dynamics of environmental and ecological variations of the protected areas. The examples include revealing the level growth rate trend and distribution pattern of the night time light of global protected areas quantifying the energy budget water cycle and carbon sink over the Three River

Headwaters Region in the hinterland of the Tibetan Plateau monitoring wetland change in a cross boundary zone between Northeast China and the Russian Far East and monitoring applications and change analyses in protected areas of boreal forests dryland shrubs coastal salt marshes large lakes and temperate semi humid to semi arid transitional agricultural regions using a variety of sensor data with innovative approaches Also included in this collection is a bibliometric analysis that suggests the intellectual structure in remote sensing of protected areas from the perspective of journal publications

Routledge Handbook of International Organization Bob Reinalda, Marieke Louis, 2024-12-09 This completely revised and rewritten handbook gives an overview of international organization IO as a dynamic field of research that adds to our understanding of global and regional relations and related domestic politics Bringing together international scholars from a range of disciplines it considers both IO as a process and multilateral organizations as institutions This handbook is divided into five parts I Documentation sources and perspectives II International secretariats as bureaucracies III Actors within and beyond international bureaucracies IV Processes within and beyond international bureaucracies V Challenges to international organizations Containing new chapters on topics such as the anthropological perspective IO secretariats in several continents outside of Europe feminization the digital turn and challenges to IO legitimacy the contributors reflect on the progression of IO studies from a burgeoning field to a well established subfield of international relations and the move away from scholarship based mainly in North Western Europe and the United States This book will be of particular interest to scholars and students of IOs global governance diplomacy and foreign policy as well as practitioners of multilateral cooperation

The Health Status of Internal Migrants in China Peigang Wang, 2020-06-01 This book describes the health status of internal migrants in China and explores a number of related factors which include their physical health mental health fertility social integration the current state of basic public health services in China and so on At present there are 245 million migrants working in China which means 1 out of every 6 people is a migrant The large scale of the migrant population is accompanied by a range of problems concerning e g public health and medical services This book draws on the latest findings and data to describe and analyze the health status of migrants in China from three perspectives population distribution time distribution and spatial distribution and each chapter employs various advanced statistical methods such as multilevel modeling and propensity score matching Given the in depth information it provides the book will appeal to managers clinicians and researchers from many fields It shares valuable insights into the health status of and related factors concerning China s internal migrants while also providing a sound scientific basis for decision makers

Air Traffic Management Margaret Arblaster, 2018-02-06 Air Traffic Management Economics Regulation and Governance provides the latest insights on approaches and issues surrounding the economic regulation and governance of air traffic management ATM The book begins by explaining what ATM is showing its importance within the aviation industry It then outlines the unique institutional characteristics that govern ATM also discussing its implications for economic regulation and investment

Technological developments and the issues and approaches to safety regulation are also covered as are the implications ATM has on airports The book concludes with an exploration of future directions including the entry of drones into airspace and the introduction of competition in ATM services Air traffic management plays a critical role in air transport impacting both air safety and the efficiency of air services Yet air navigation services are shifting from government provision to private industry creating the need for more critical analysis of governance and economic regulation within the ATM industry Consolidates the latest economic regulation and reform material regarding air traffic management Provides numerous practical examples and real world case studies drawn from around the globe Explores economic regulation in both larger and smaller economies Written from an objective informed and practical perspective by an experienced regulation practitioner and researcher
