## **2015 Nic Report Pakistan:**

*2016 Global Food Policy Report* International Food Policy Research Institute (IFPRI), 2016-03-31 The Global Food Policy Report is IFPRI's flagship publication. This year's annual report examines major food policy issues, global and regional developments and commitments made in 2015, and presents data on key food policy indicators. The report also proposes key policy options for 2016 and beyond to achieve the Sustainable Development Goals. In 2015, the global community made major commitments on sustainable development and climate change. The global food system lies at the heart of these commitments, and we will only be able to meet the new goals if we work to transform our food system to be more inclusive, climate smart, sustainable, efficient, nutrition and health driven, and business friendly. [The Global Innovation Index 2015](#) Cornell University, INSEAD, World Intellectual Property Organization, 2015 The Global Innovation Index ranks the innovation performance of 141 countries and economies around the world based on 79 indicators. This edition explores the impact of innovation-oriented policies on economic growth and development. High-income and developing countries alike are seeking innovation-driven growth through different strategies. Some countries are successfully improving their innovation capacity, while others still struggle. [Architectural Conservation in Asia](#) John H. Stubbs, Robert G. Thomson, 2016-11-10 The first comprehensive overview of architectural conservation in Asia. Internationally renowned author John Stubbs follows up on the success of his previous volumes *Time Honored: A Global View of Architectural Conservation* and *Architectural Conservation in Europe and the Americas*. Architectural conservation is a rapidly expanding and under-researched field in Asia, and international experts are often brought in to make the subject of considerable interest to international academics. Boxes and case studies by local experts add depth and interest to the authors' meticulous research. A website with extra information and resources accompanies the series: <http://conservebuiltworld.com>. *Asian Defence Review 2016* Air Marshal Vinod Patney, 2016-05-15 Last year the war in Syria became a melee: the US, Russia, NATO, Saudi Arabia, Iran, Turkey, Lebanon, and some others struggled to bring peace to the region. But each stakeholder hankered after a different end state. President Bashar al-Assad's continuance in power became a contentious issue. In due course of time, Syria and the Islamic State in Syria. ISIS jumped the order of priorities for the US forces in the area. In importance, they have left behind the drawdown in Afghanistan, which has been backburned provisionally. As it appears, garnering the support of the countries of the region like India, Japan, South Korea, the Philippines, etc. to counter the rise of China will continue to be high on the US agenda. Likewise, lifting of sanctions against Iran following its rapprochement with the West will influence the world in many ways. The fallout of the testing of the hydrogen bomb by North Korea, the South China Sea imbroglio, and Indo-Pak relations in the wake of the Pathankot terror strike too will cast their shadows on the geo-politics of the region in 2016. Evading war and conflict in the prevailing environment is an effort. Economic interests and geo-political compulsions make the choice of alignment difficult for peace-loving nations of the world. They are faced with the dilemma of evading armed conflicts. It

requires a conscious and sustained effort to do so In order to work towards such goals it is necessary to look at the geo political security and military related issues objectively The Centre for Air Power Studies CAPS has been publishing the Asian Defence Review to fulfill this need This volume a resource base for both the professional and general readers is the ninth in the series under this title It aims to add to the pool of information and knowledge in the current strategic discourse dealing with military strategy defence politics and trends in military capabilities that impact Asia In particular it covers some of the important issues related to India s security environment the Indian Air Force cyber warfare nuclear security warfare technologies export control regimes Russia China and Pakistan *Wetland Science* B. Anjan Kumar Prusty, Rachna Chandra, P. A. Azeez, 2017-04-21 This book is an attempt to acknowledge the discipline wetland science and to consolidate research findings reviews and synthesis articles on different aspects of the wetlands in South Asia The book presents 30 chapters by an international mix of experts in the field who highlight and discuss diverse issues concerning wetlands in South Asia as case studies The chapters are divided into different themes that represent broad issues of concern in a systematic manner keeping in mind students researchers and general readers at large The book introduces readers to the basics and theory of wetland science supplemented by case studies and examples from the region It also offers a valuable resource for graduate students and researchers in allied fields such as environmental studies limnology wildlife biology aquatic biology marine biology and landscape ecology To date the interdisciplinary field wetland science is still rarely treated as a distinct discipline in its own right Further courses on wetland science aren t taught at any of the world s most prestigious universities instead the topics falling under this discipline are generally handled under the disciplines ecology or under the extremely broad heading of environmental studies It is high time that Wetland Science be acknowledged as an interdisciplinary sub discipline which calls for an attempt to consolidate its various subtopics and present them comprehensively Thus this book also serves as a reference base on wetlands and facilitates further discussions on specific issues involved in safeguarding a sustainable future for the wetland habitats of this region *Organiser* ,2001 *Line on Fire* Happymon Jacob, 2018-12-24 The India Pakistan border in Jammu Kashmir has witnessed repeated ceasefire violations CFVs over the past decade As relations between India and Pakistan have deteriorated CFVs have increased exponentially It is imperative to gain a deeper understanding of these violations owing to their potential to not only cause a crisis but also escalate an ongoing one *Line on Fire* part of the Oxford International Relations in South Asia series postulates that the incorrect diagnosis of the reasons behind CFVs has led to wrong policies being adopted by both India and Pakistan to deal with the recurrent violations Using fresh empirical data and first hand accounts the volume attempts to understand the reason why CFVs continue to take place between India and Pakistan despite consistent efforts to reduce the tension between the two nations In doing so it recontextualizes and enriches the prevailing arguments in contemporary literature on escalating dynamics and unending ceasefire agreements between the two South Asian nuclear rivals **BJP Today** ,2005 *Yearbook of International*
