Policing and Boundaries in a Violent Society Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS. By means of a historical analysis of South Africa, this book introduces a new concept, police frontierism, which illuminates the nature of the relationships between the police, policing, and boundaries and can potentially be used for future case study research. Drawing on a wealth of research, this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary. Focusing on cases of high density police operations, public order policing, and the recent policing of the COVID 19 lockdown, this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa. This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization.

A Regional Perspective on the Post-2015 United Nations Development Agenda United Nations. Economic and Social Commission for Western Asia, 2013 In September 2011 the Secretary General requested Under Secretary General for Economic and Social Affairs and the Administrator of the United Nations Development Programme UNDP to establish a core group of dedicated senior technical experts to coordinate system wide preparations on ongoing efforts and propose a unified vision and road map for the definition of a United Nations development agenda post 2015 in consultation with all stakeholders. As a result of this request, the United Nations System Task Team on the Post 2015 United Nations Development Agenda UNTT was established and launched in January 2012. UNTT is co chaired by the United Nations Department of Economic and Social Affairs DESA and UNDP and is composed of more than 60 entities of the United Nations system including all the Regional Commissions. Its terms of reference include the formulation of a system wide vision and road map to contribute to the global debate on the post 2015 United Nations development agenda. In June 2012 UNTT issued a report to the Secretary General entitled *Realizing the Future We Want for All*. The report identifies a future vision based on the core values of human rights, equality, and sustainability and proposes to reorganize a post MDG framework along four dimensions: i inclusive social development, ii inclusive economic development, iii environmental sustainability, and iv peace and security. The report concludes by stressing the need to develop a post 2015 agenda that responds to people's aspirations through clear, easy to communicate goals that will help guide coherent policy action at the global, regional, and national levels. The present report is designed to make a regional contribution to that global policy debate, including by identifying practical difficulties in achieving such policy coherence at different levels.
