AN AI and the First Nations of the U S and Canada respectively By identifying and analysing the functions of the principle in the public care protection and control etc private matrimonial adoption etc and hybrid adoption from care surrogacy etc sectors of family law it builds a picture of the law relating to children in the two countries and reveals significant jurisdictional differences By examining the legislation and related caselaw it assesses the different effects of the same legal framework on the welfare of Indigenous and other children In addition to a digest of cases and legislation that identifies and tracks the role of this legal principle lawyers academics and other researchers will find a wealth of information on how it has evolved to reflect corresponding changes in social mores For those interested in politics and social policy there is much illuminating evidence of how the law has balanced this principle relative to others in both civil and criminal contexts
