

# Chapter 1

## The Role of Managerial Finance

### ■ Instructor's Resources

#### Overview

This chapter introduces the student to the field of finance and explores career opportunities in both financial services and managerial finance. The three basic legal forms of business organization (sole proprietorship, partnership, and corporation) and their strengths and weaknesses are described, as well as the relationship between major parties in a corporation. The managerial finance function is defined and differentiated from economics and accounting. The chapter then summarizes the three key activities of the financial manager: financial analysis and planning, investment decisions, and financing decisions. A discussion of the financial manager's goals—maximizing shareholder wealth and preserving stakeholder wealth—and the role of ethics in meeting these goals is presented. The chapter includes discussion of the agency problem—the conflict that exists between managers and owners in a large corporation.

This chapter, and all that follows, emphasizing how the chapter content plays a vital role in the student's professional and personal life. Each chapter includes an early discussion of the relevance of the topic to majors in accounting, information systems, management, marketing, and operations. Throughout each chapter are detailed examples of how the chapter's topic relates to the student's financial life. These pedagogic tools should motivate students to quickly grasp an understanding of the chapter content and employ it in both their professional and personal lives.

### ■ Suggested Answer to Opener in Review Question

If Zuckerberg is expected to remain the CEO of Facebook after the IPO, why would he be worried about going public?

Beyond the challenges arising from the influence of outside investors and government regulations, as mentioned in the case, there is also the fact that his actions and the firm's financial statements would be more accessible to the general public. While the public might reward him with a higher salary in good years, there is a potential that he could be removed from office in bad years. Also, Facebook would be a tantalizing company to many other firms, making it a takeover target.

### ■ Answers to Review Questions

1. *Finance* is the art and science of managing money. Finance affects all individuals, businesses, and governments in the process of the transfer of money through institutions, markets, and instruments. At the personal level, finance is concerned with an individual's decisions regarding the spending and investing of income. Businesses also have to determine how to spend and invest revenues.
2. *Financial services* is the area of finance concerned with the design and delivery of advice and financial products to individuals, businesses, and government.
