Basic Financial Management J. William Petty, 1993 *Economic and Financial Analysis for Criminal Justice Organizations* Daniel Adrian Doss, William H. Sumrall III, David H. McElreath, Don W. Jones, 2013-10-28 From small law offices to federal agencies, all entities within the justice system are governed by complicated economic factors and face daily financial decision making. A complement to *Strategic Finance for Criminal Justice Organizations*, this volume considers the justice system from a variety of economic and financial perspectives and introduces quantitative methods designed to improve the efficiency and effectiveness of organizations in both the non-profit and for-profit sectors. Using only a minimum of theory, *Economic and Financial Analysis for Criminal Justice Organizations* demonstrates how to make decisions in the justice system using multiple financial and economic models. Designed for readers with little knowledge of advanced mathematics, quantitative analysis, or spreadsheets, the book presents examples using straightforward step-by-step processes with Excel and Linux Calc spreadsheet software. A variety of different types of decisions are considered, ranging from municipal bond issuance and valuation necessary for public revenues, pension planning, capital investment, determining the best use of monies toward construction projects, and other resource planning, allocation, and forecasting issues. From municipalities and police departments to for-profit prisons and security firms, the quantitative methods presented are designed to improve the efficiency and effectiveness of all organizations in the justice domain.
